Product Commercialization Framework

Ir Prof Alan Lam, JP

Powered by Poffices.AI

Outline of the Course

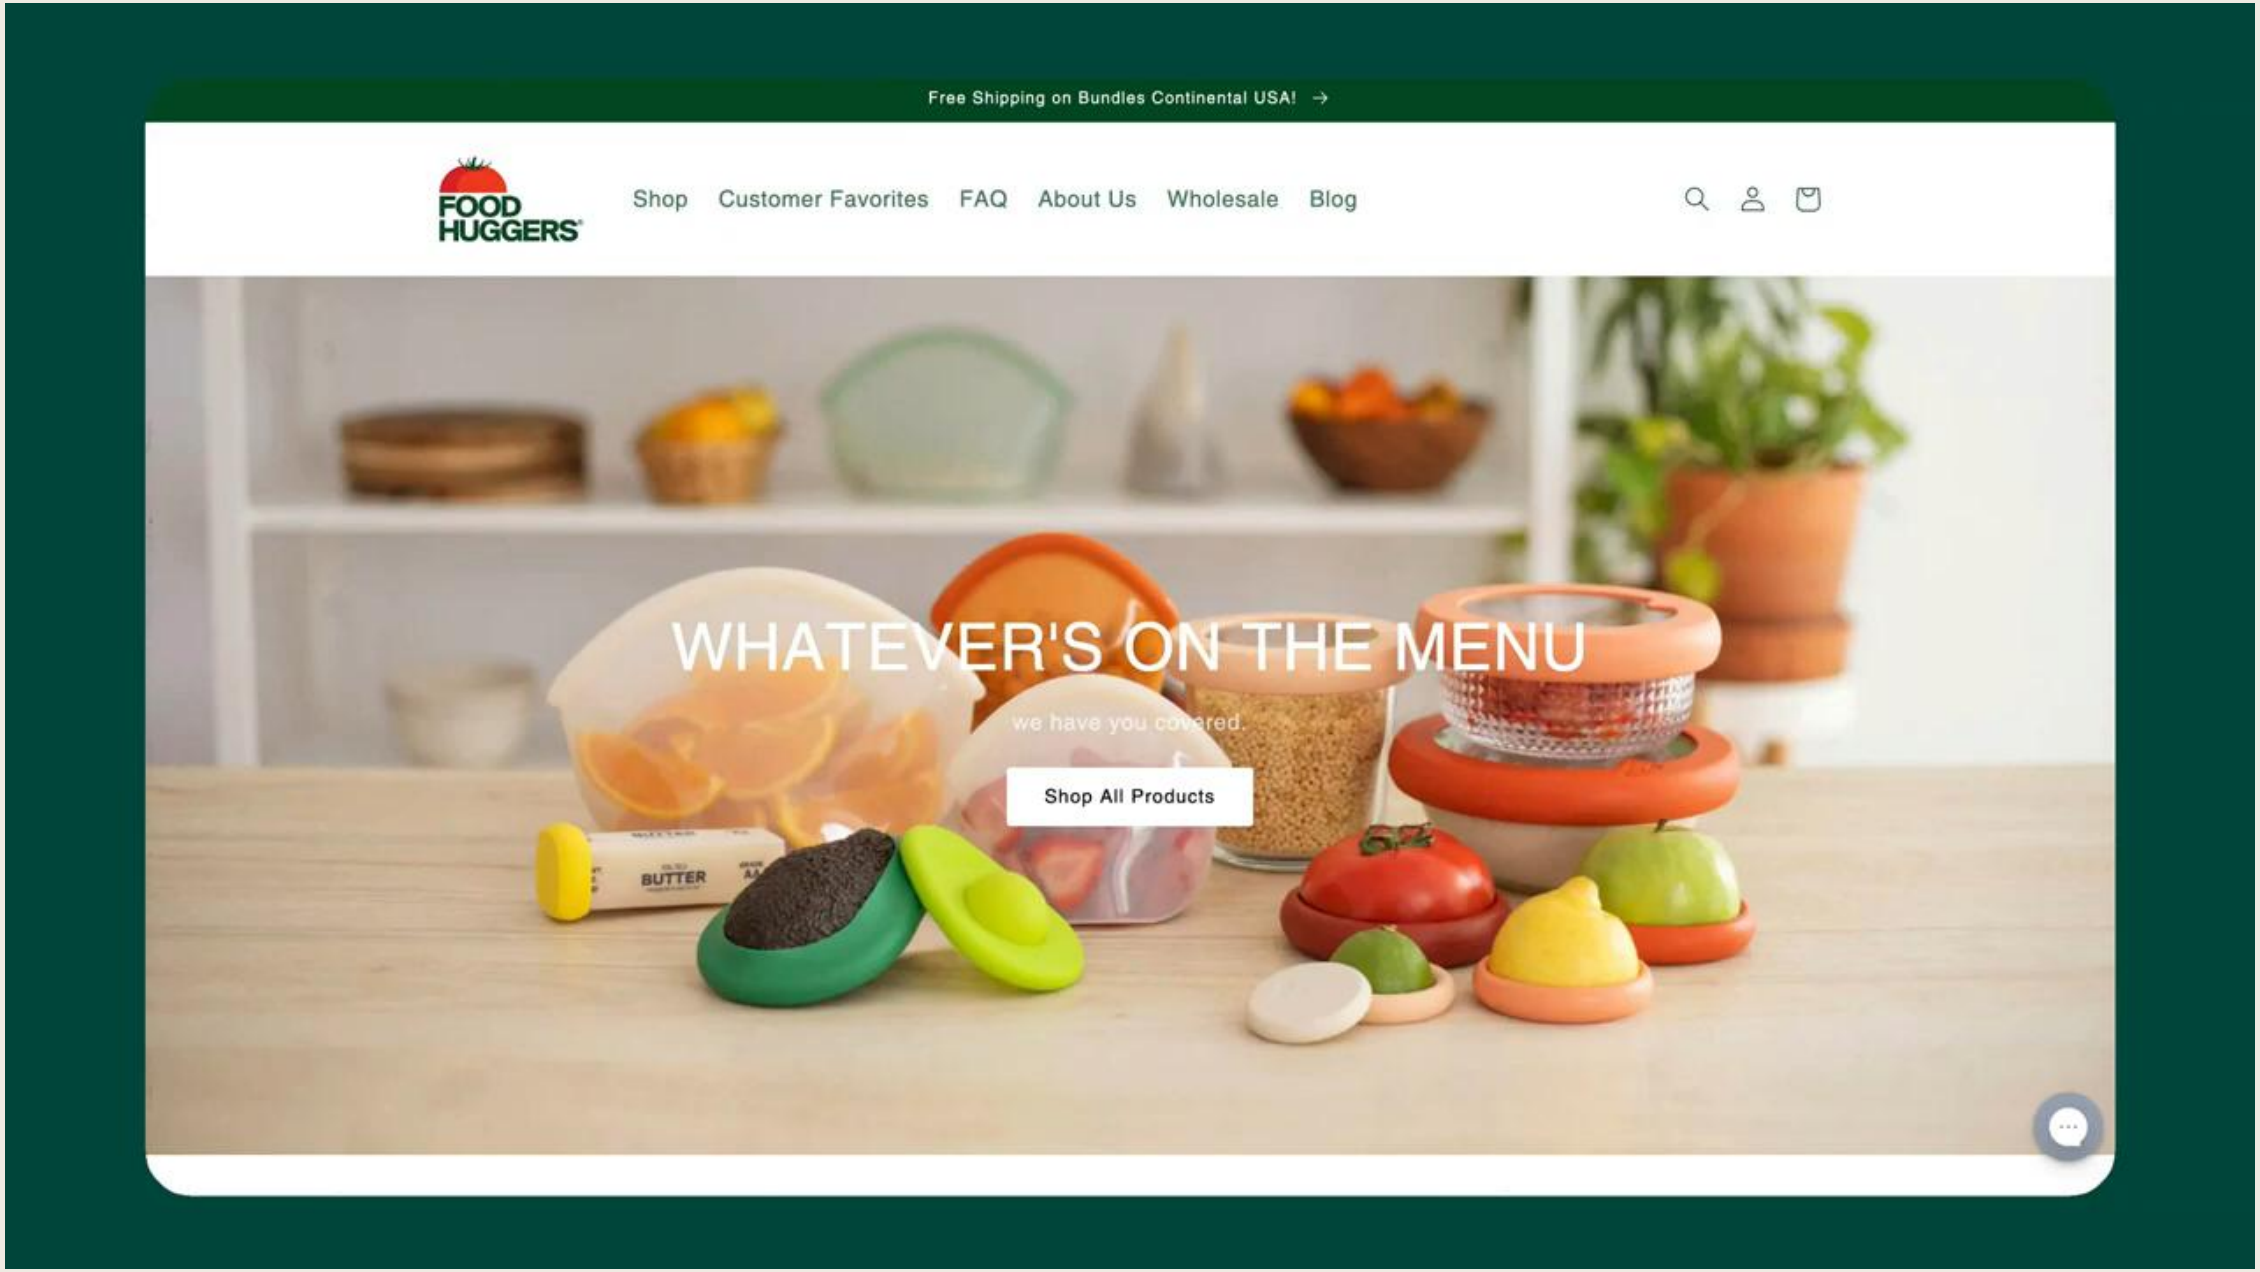

Chapter 1: Review of Identification of Target Market

Ir Prof Alan Lam, JP

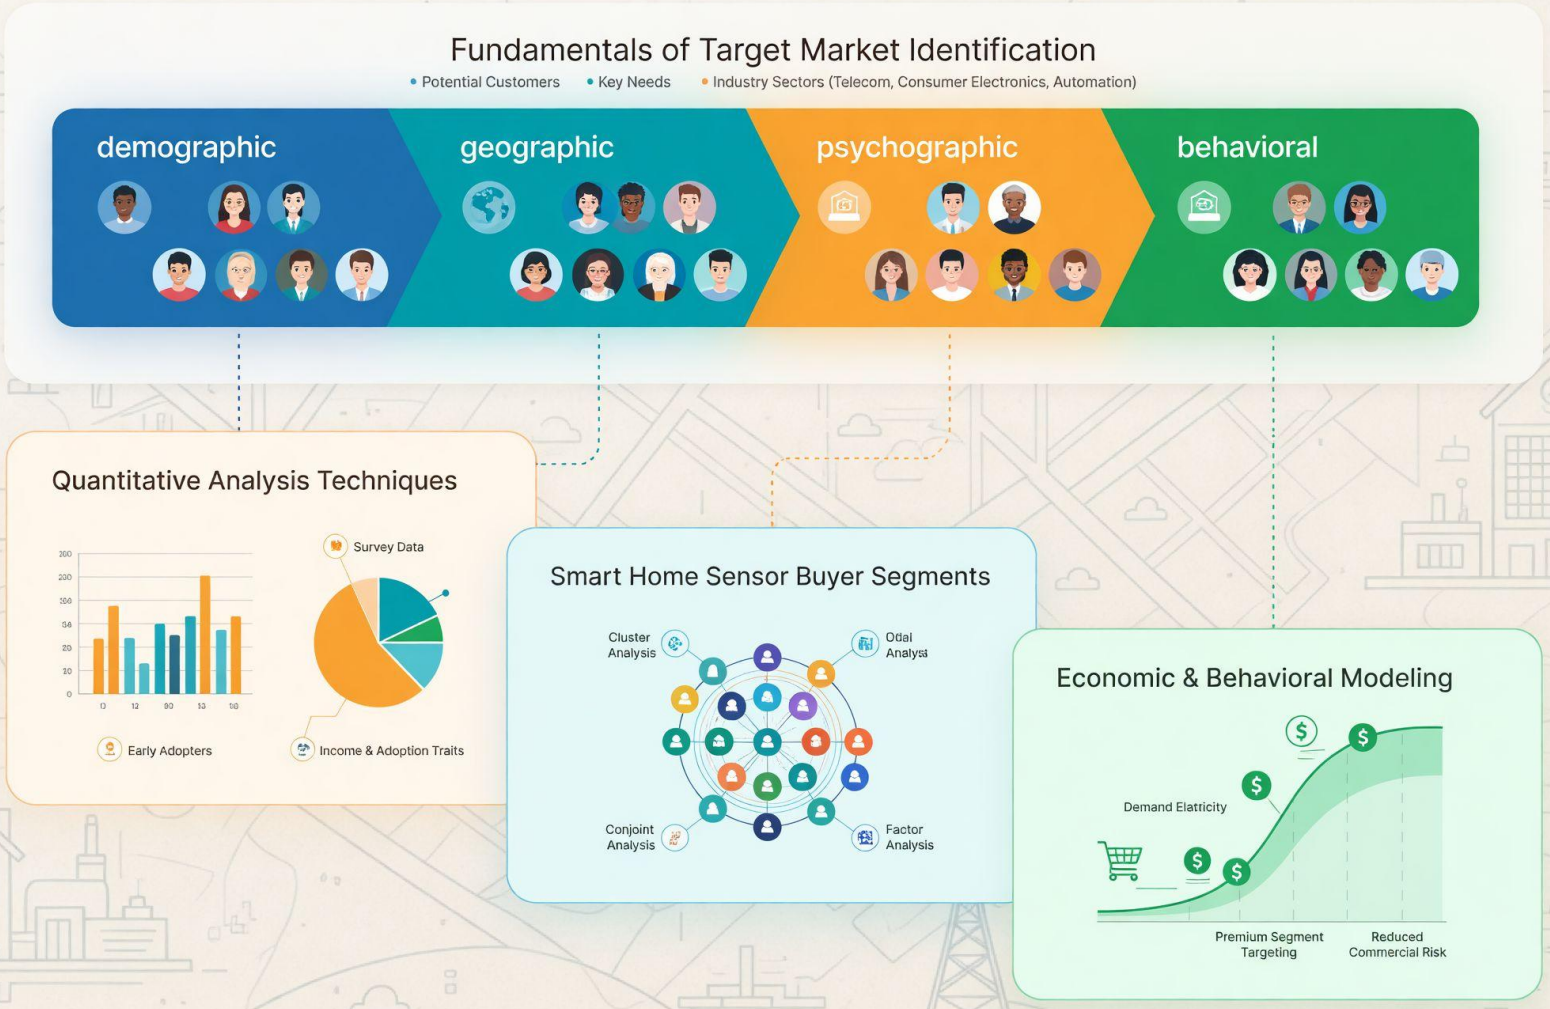

Powered by **Poffices.AI**

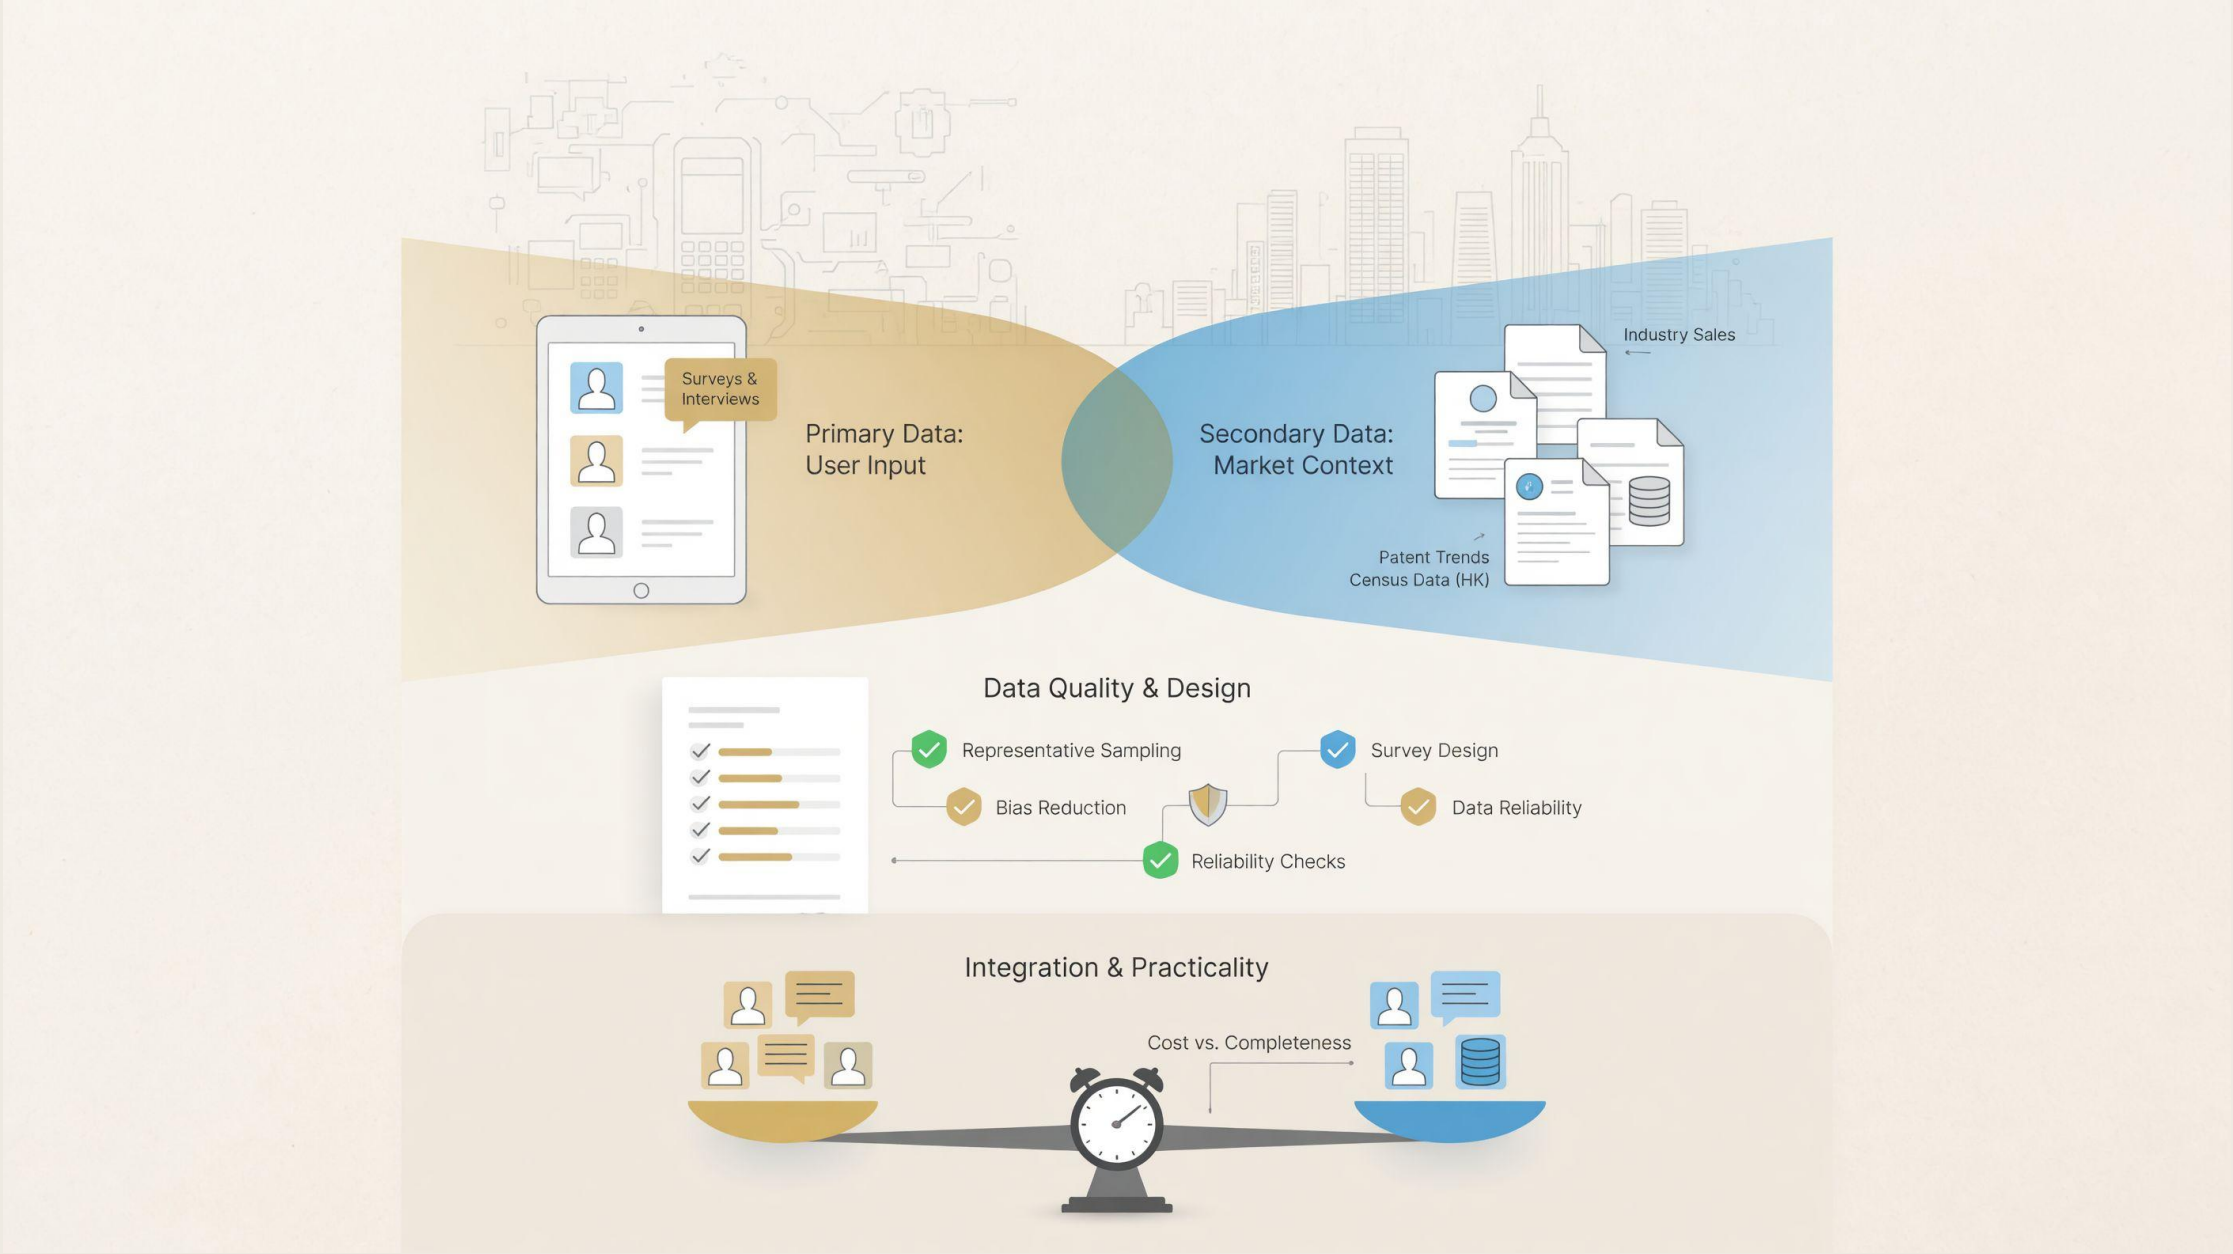

Review of Identifying Target Market

Methods to Identify Target Market

Data Collection Techniques for Market Analysis

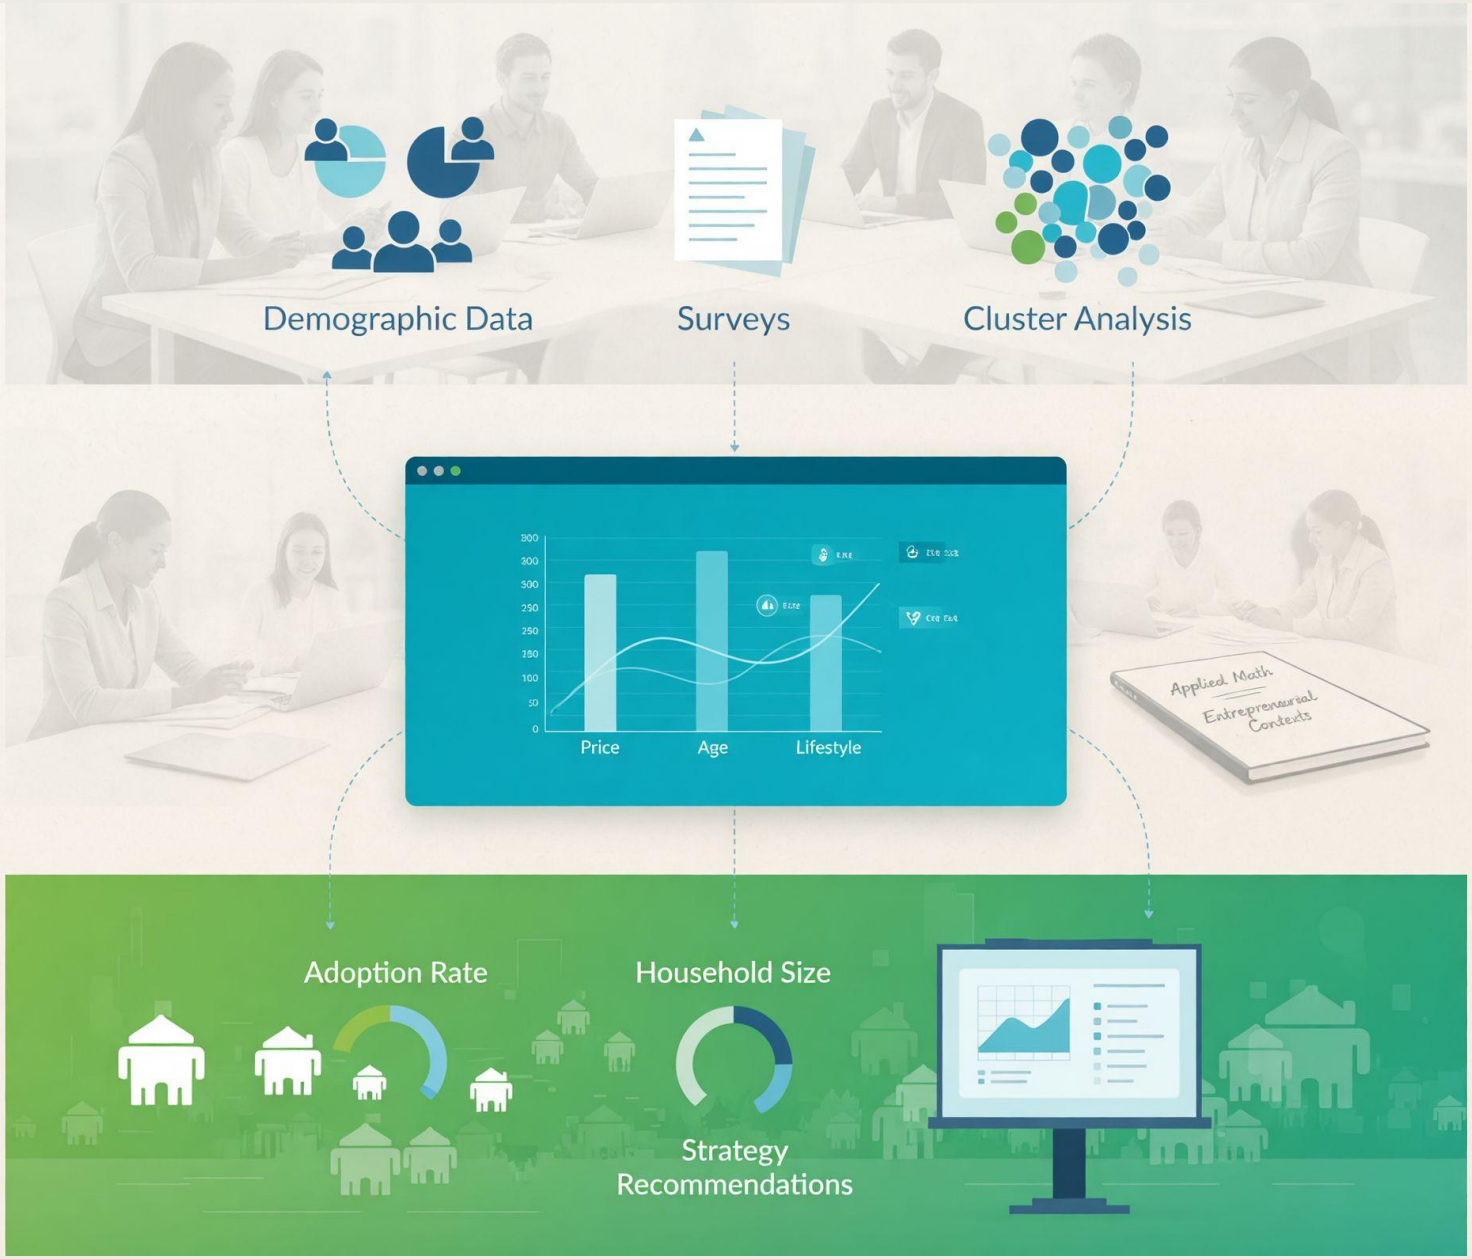

Step-by-Step Calculation of Market Potential

Use of Regression Analysis in Market Identification

Examples Demonstrating Identification Process

Chapter 2: Target Market and Audience

Ir Prof Alan Lam, JP

Powered by **Poffices.AI**

Example of Product Positioning for Target Customer

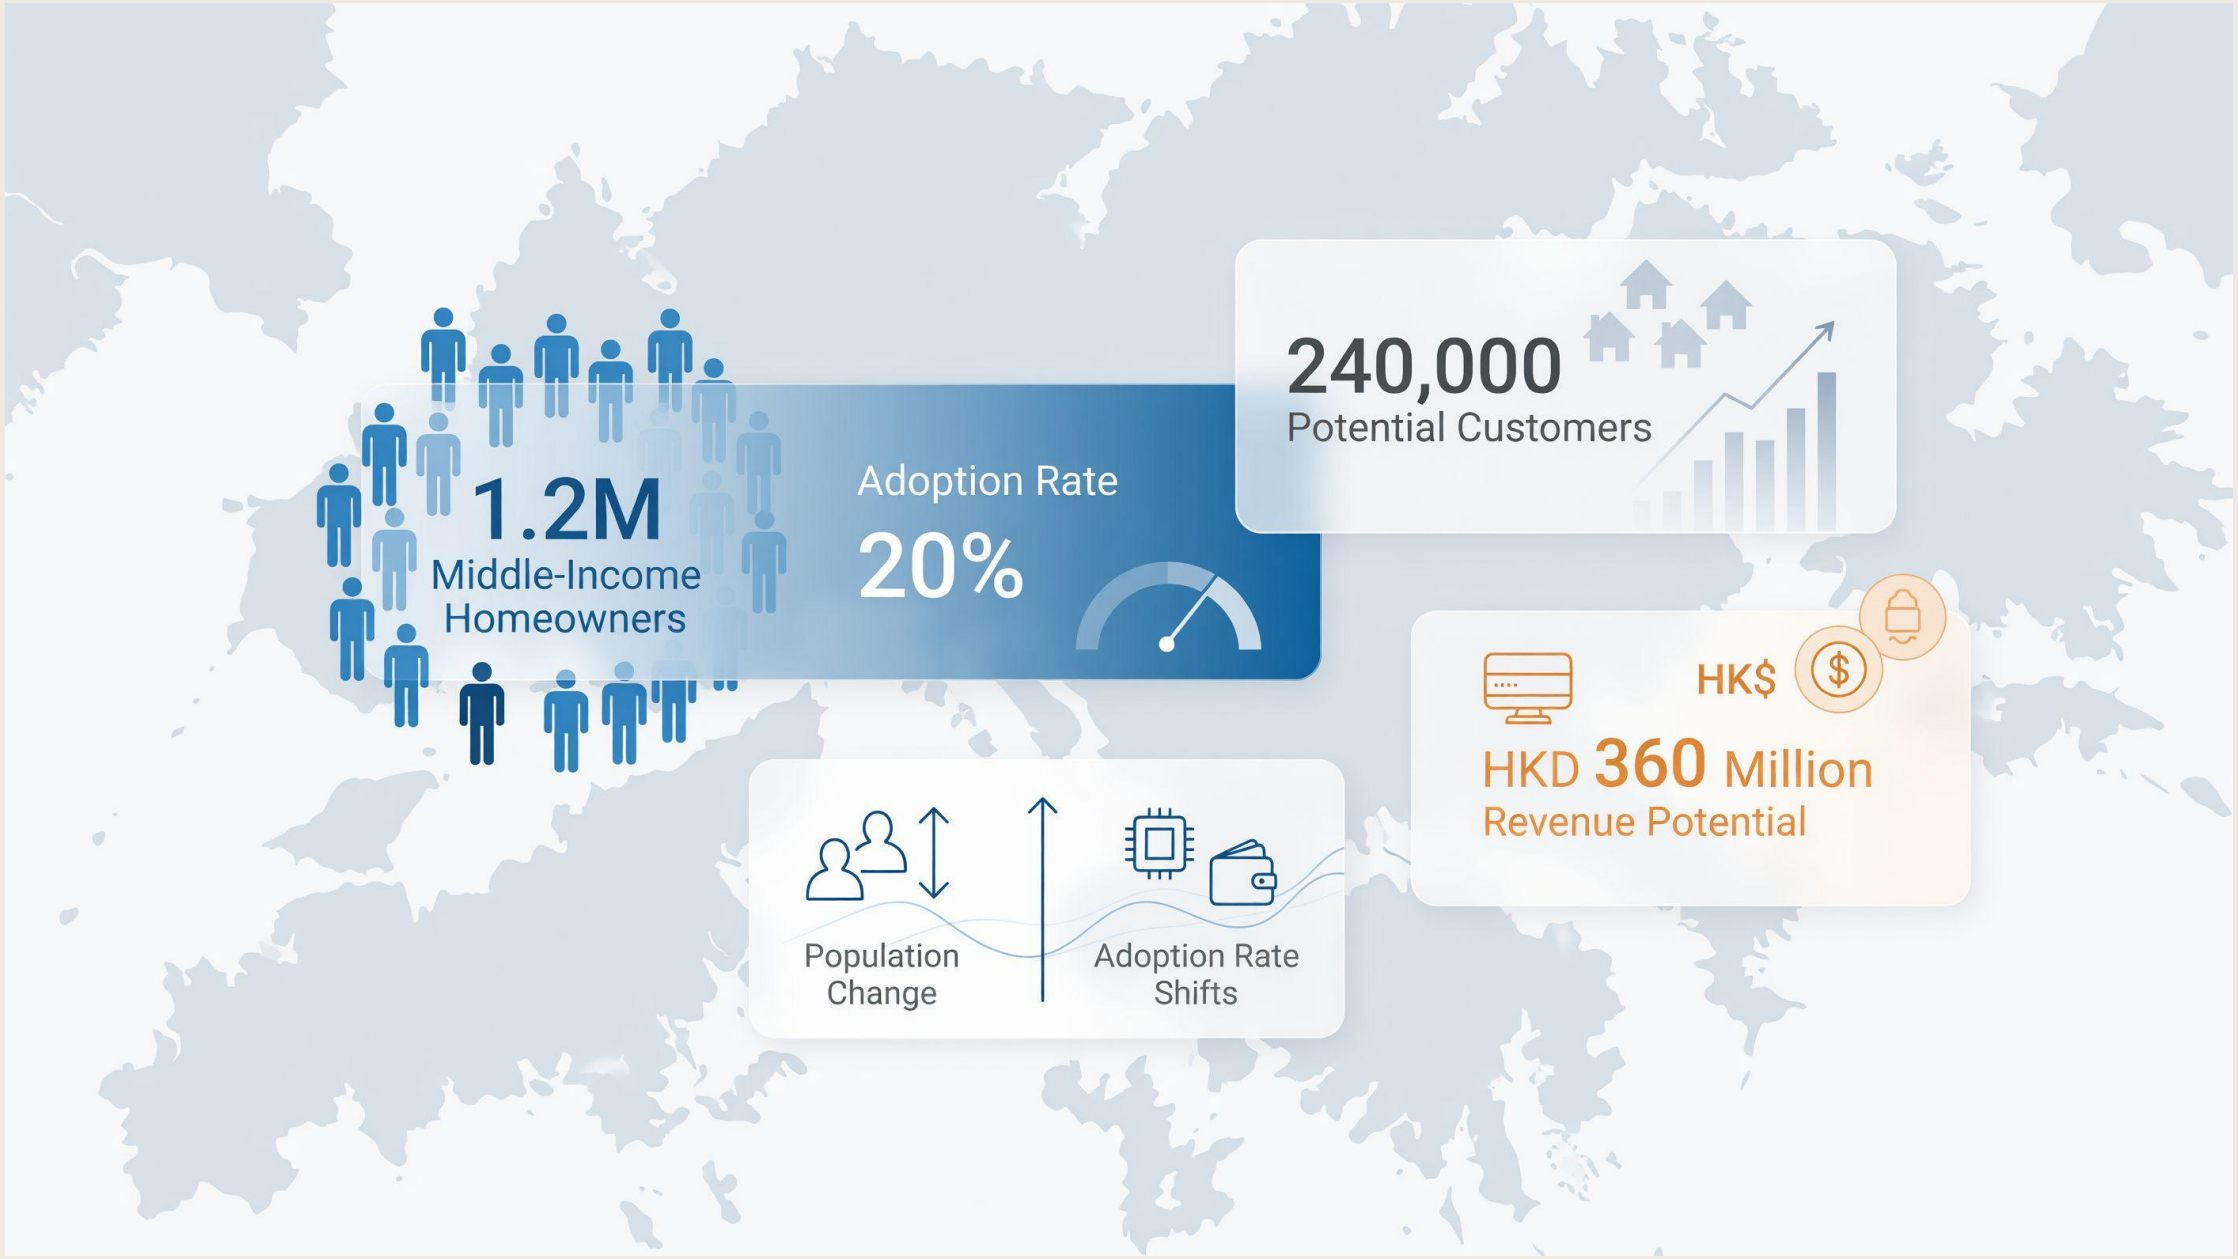

Understanding Market Segmentation

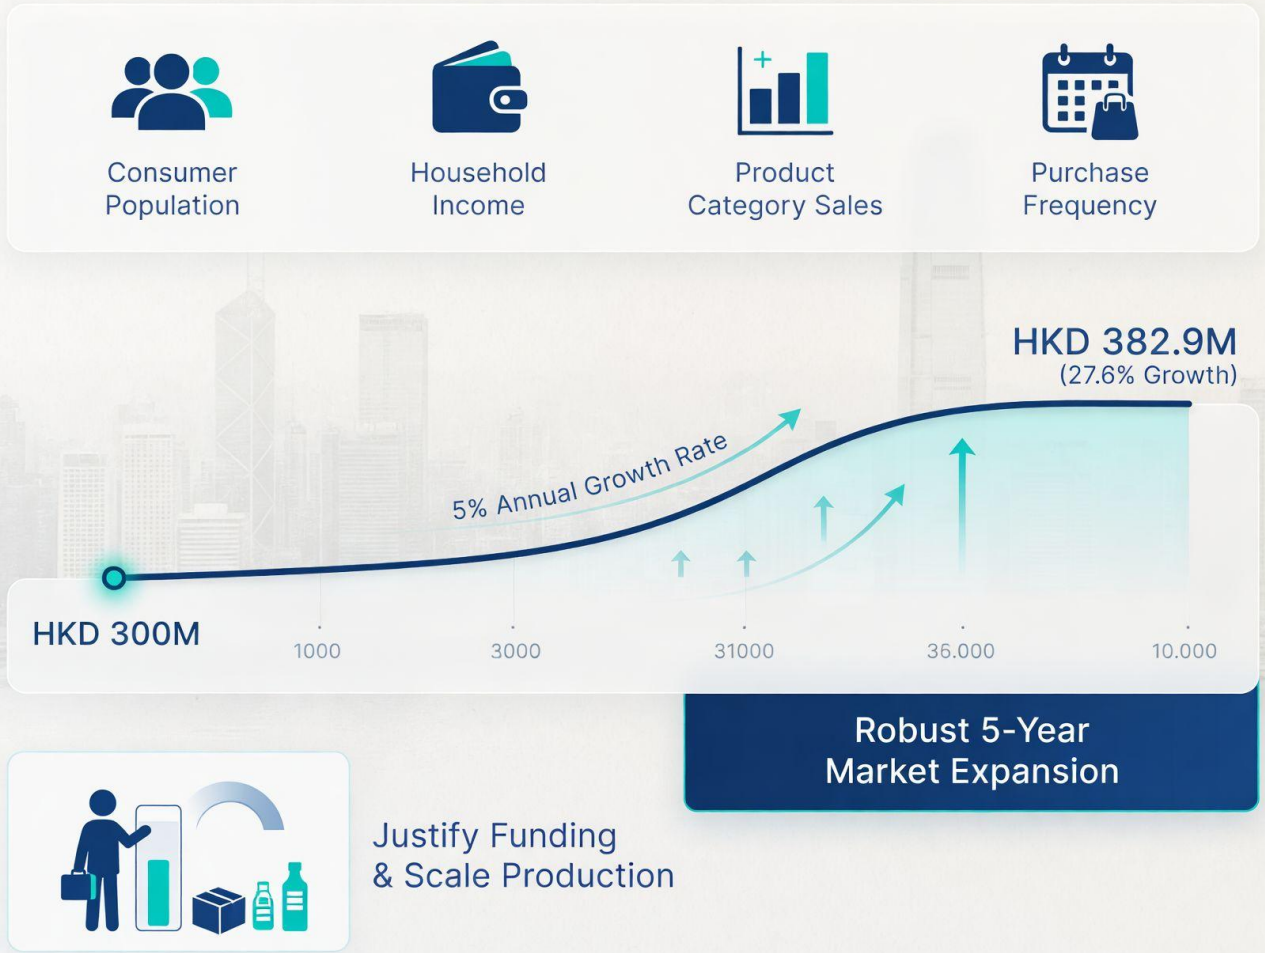

Quantitative Market Research

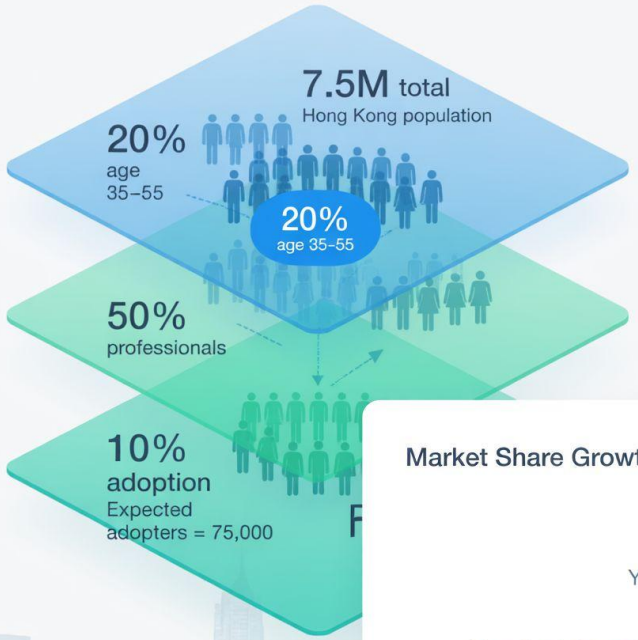

Quantitative Analysis of Market Size

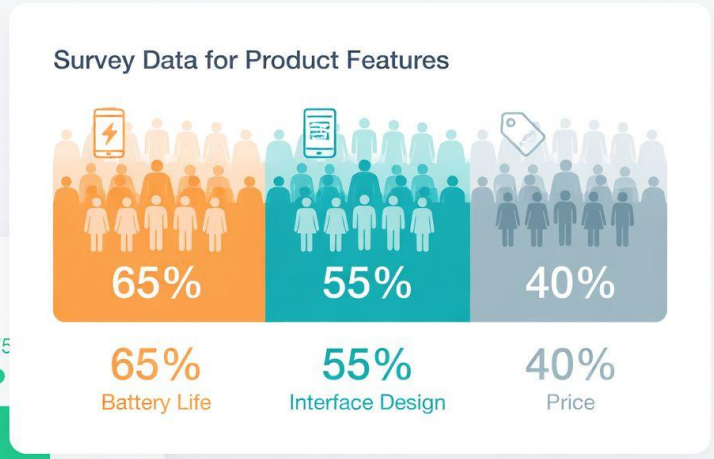

Market Size and Growth Estimations

Example Problems on Market Evaluation

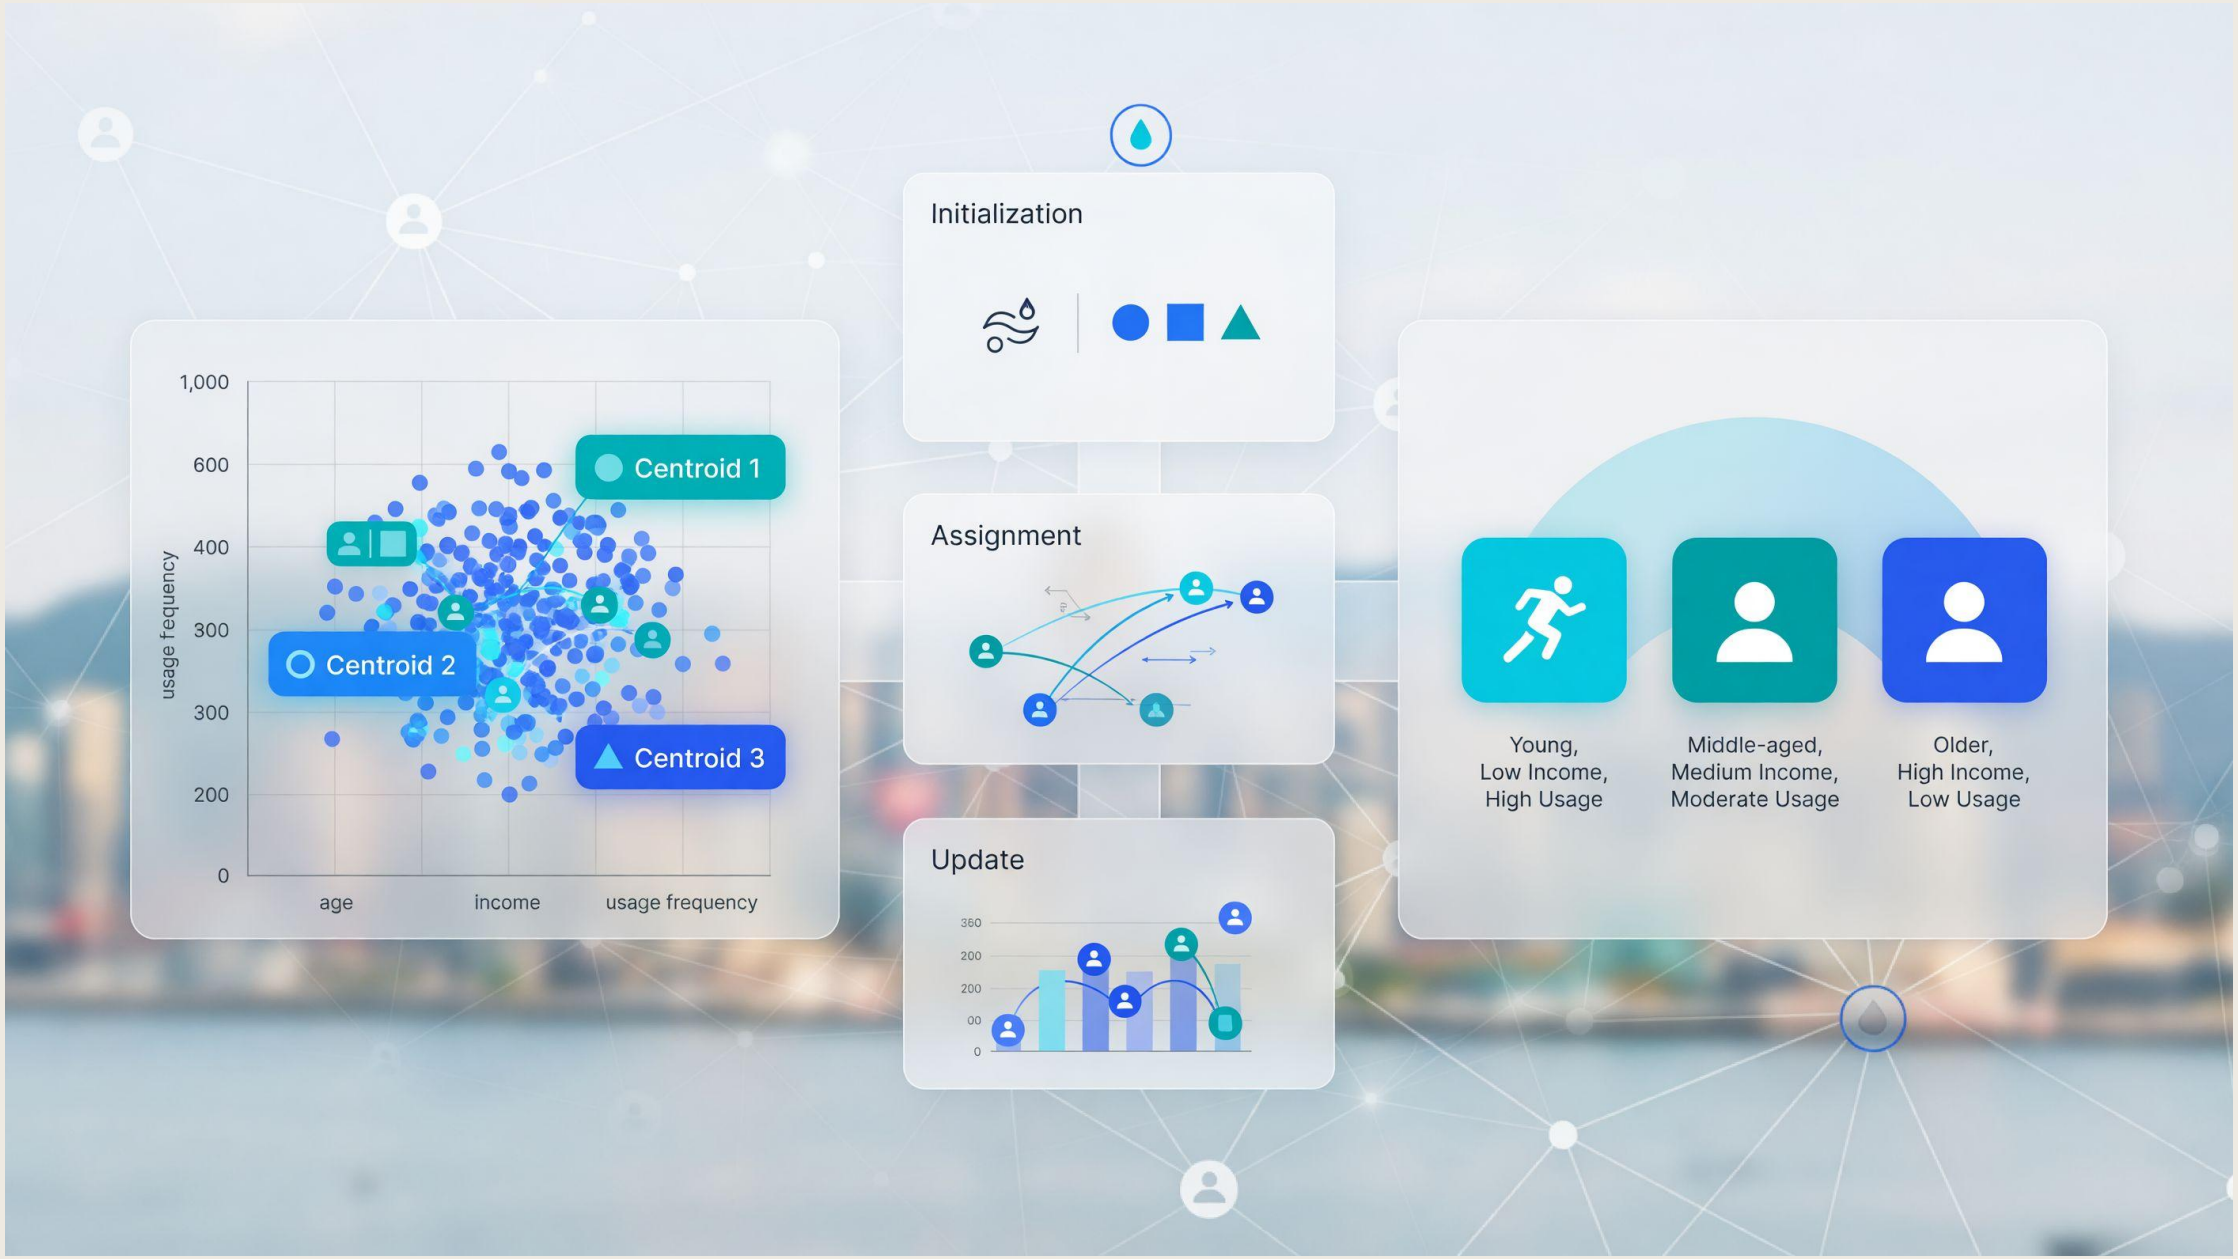

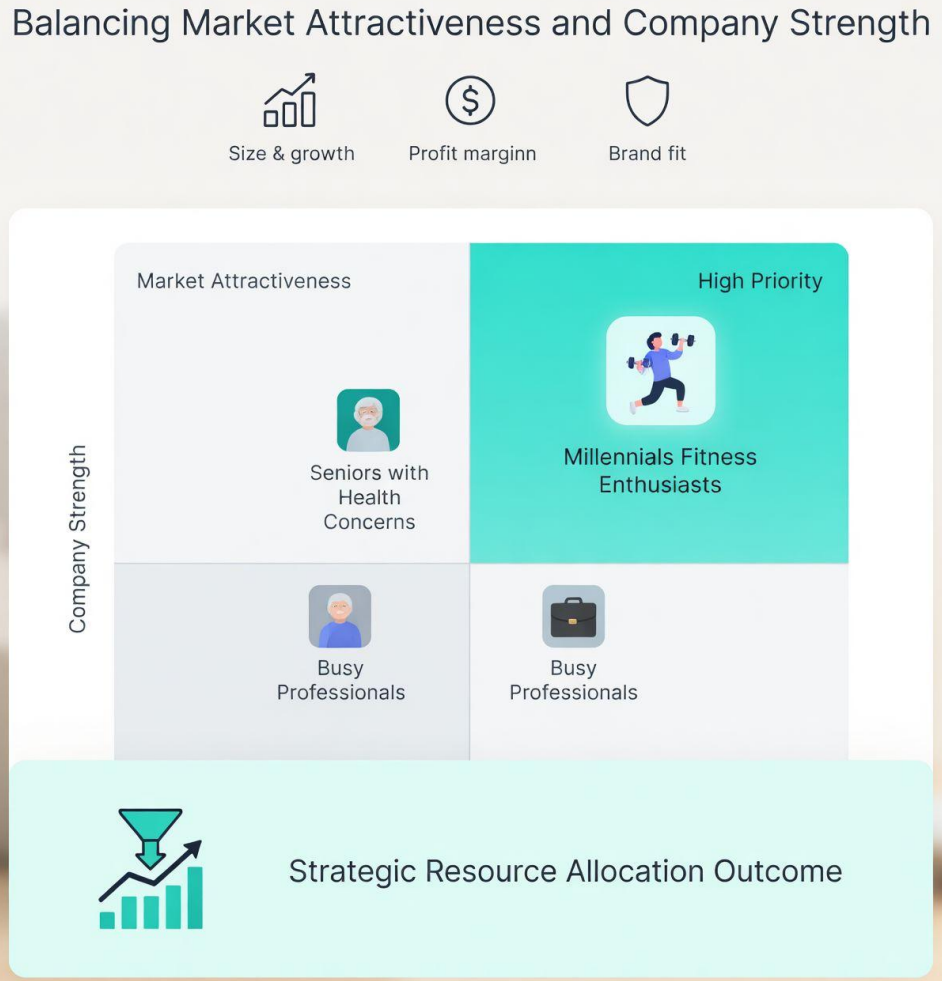

Analyzing Customer Demographics with Data

Cluster Analysis Application

Target Audience Prioritization Matrix

Evaluating Customer Needs through Surveys

Chapter 3: Design Thinking for Product Commercialization

Ir Prof Alan Lam, JP

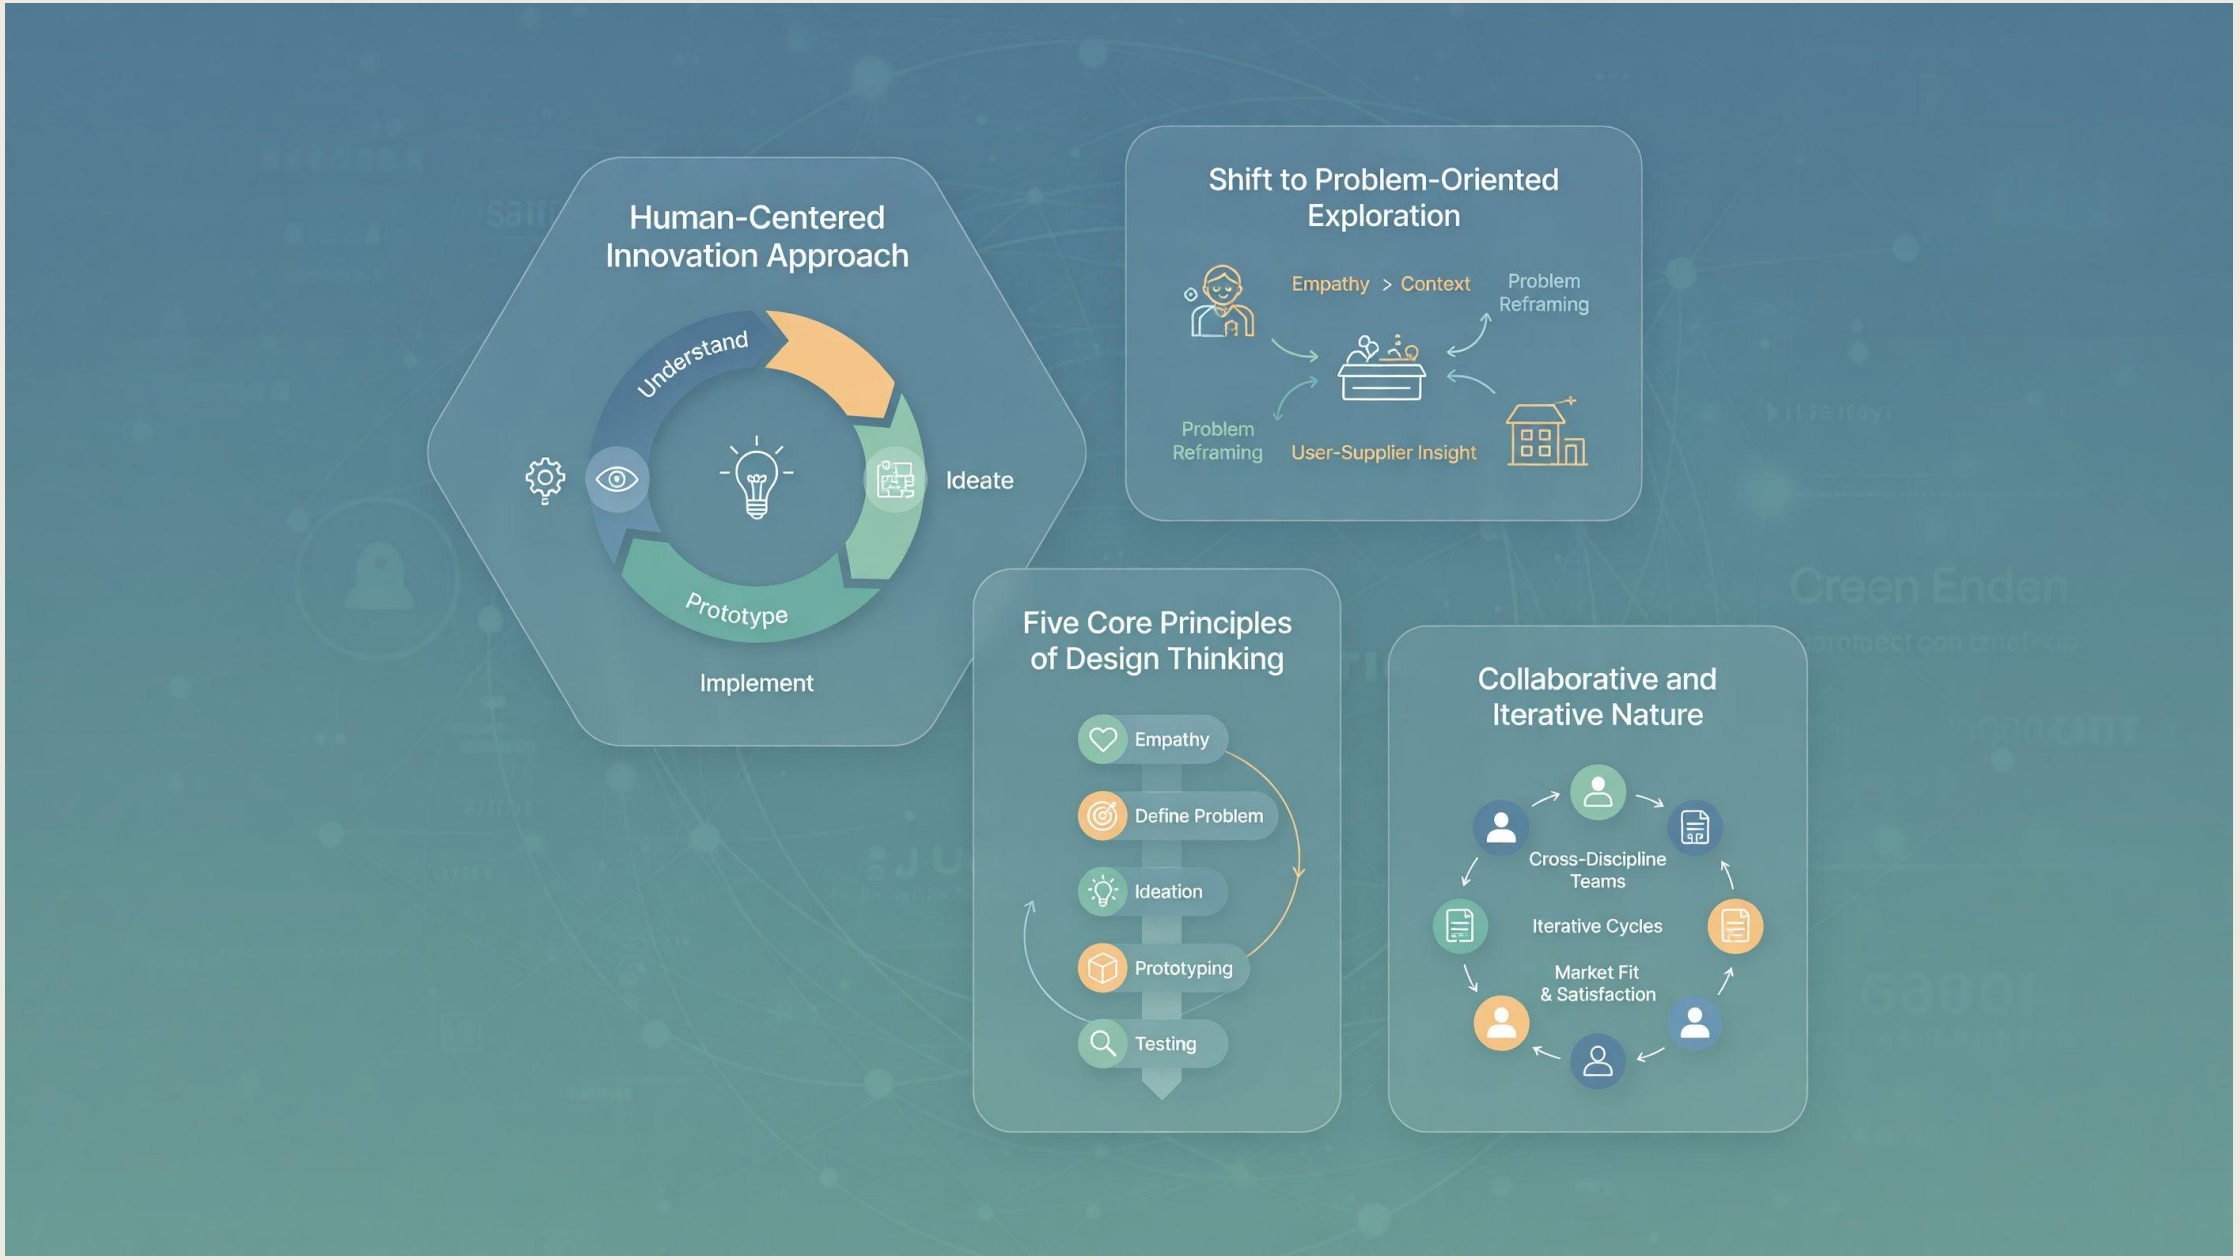

Powered by Poffices.AI

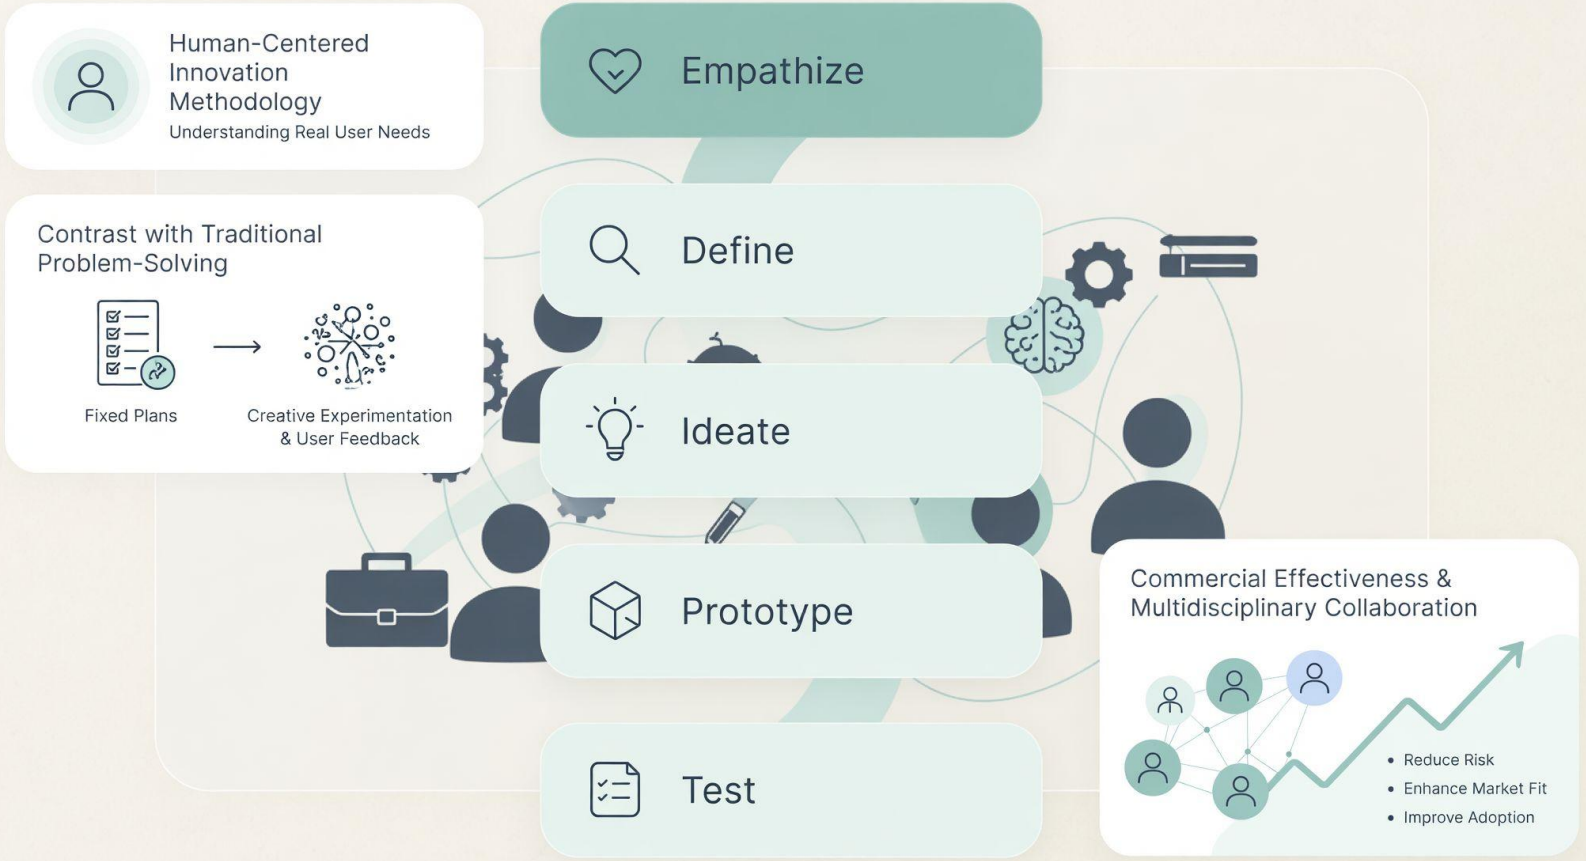

Introduction to Design Thinking

Overview of Design Thinking Principles

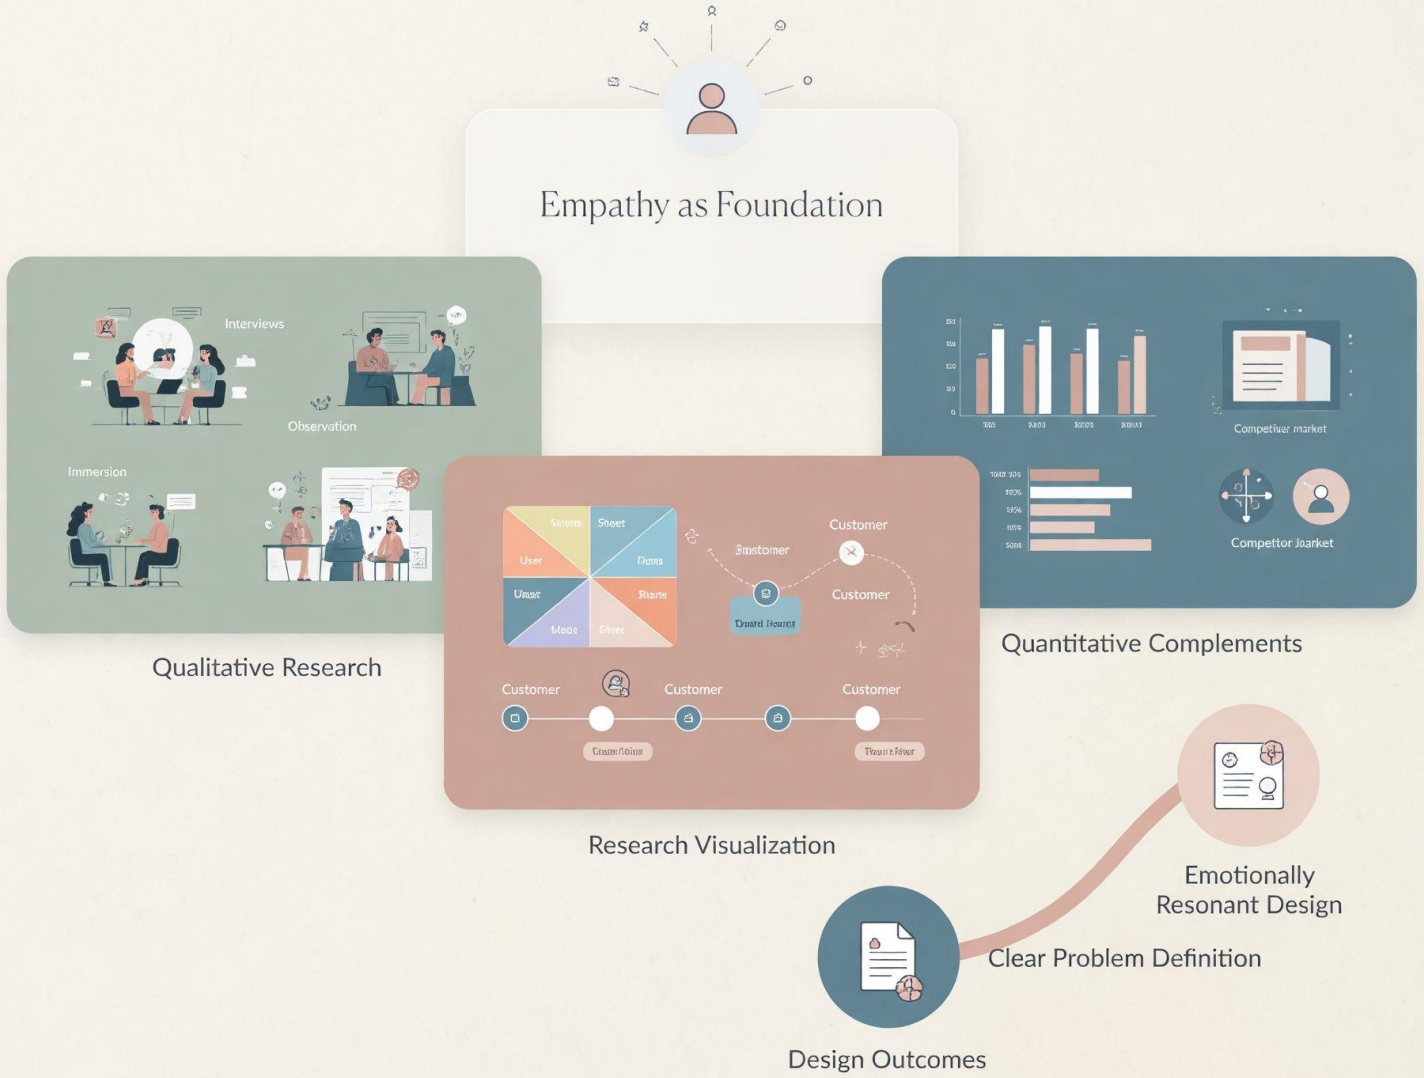

Principles of Design Thinking

Applying Design Thinking in Technology Commercialization

Empathy and User Research Methods

Defining Problem Statements Clearly

How might we... questions

Affinity Diagrams & Themes

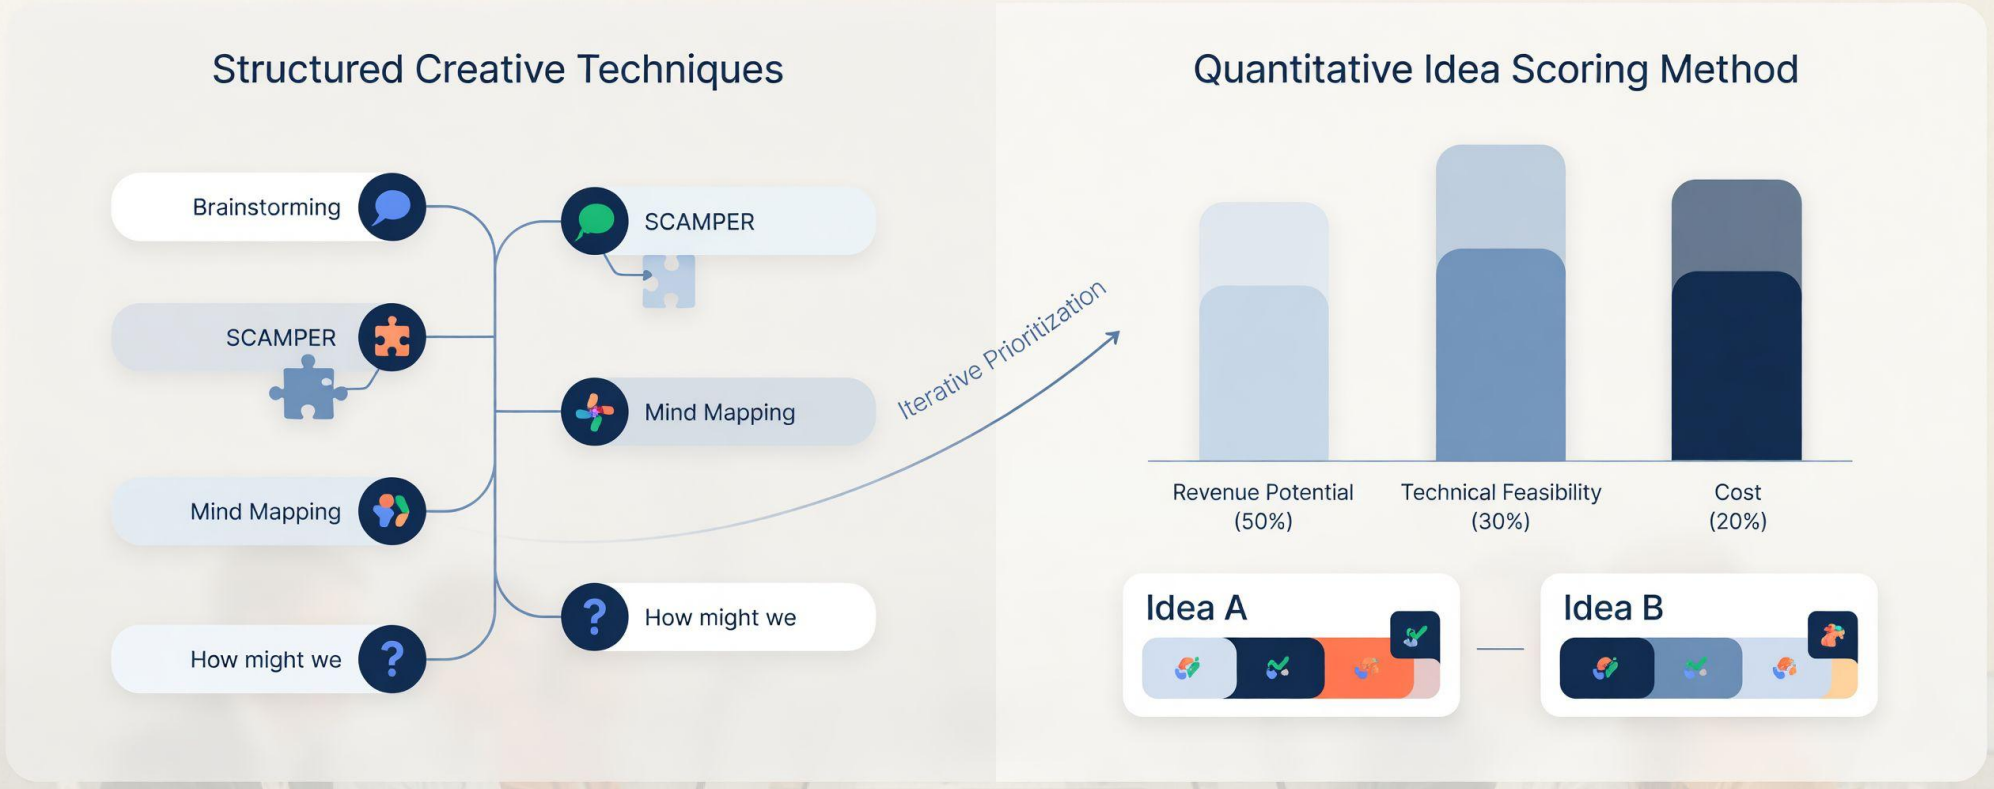

Quantitative Metrics & Market Size

Shared Vision & Focused Delivery

Ideation Techniques

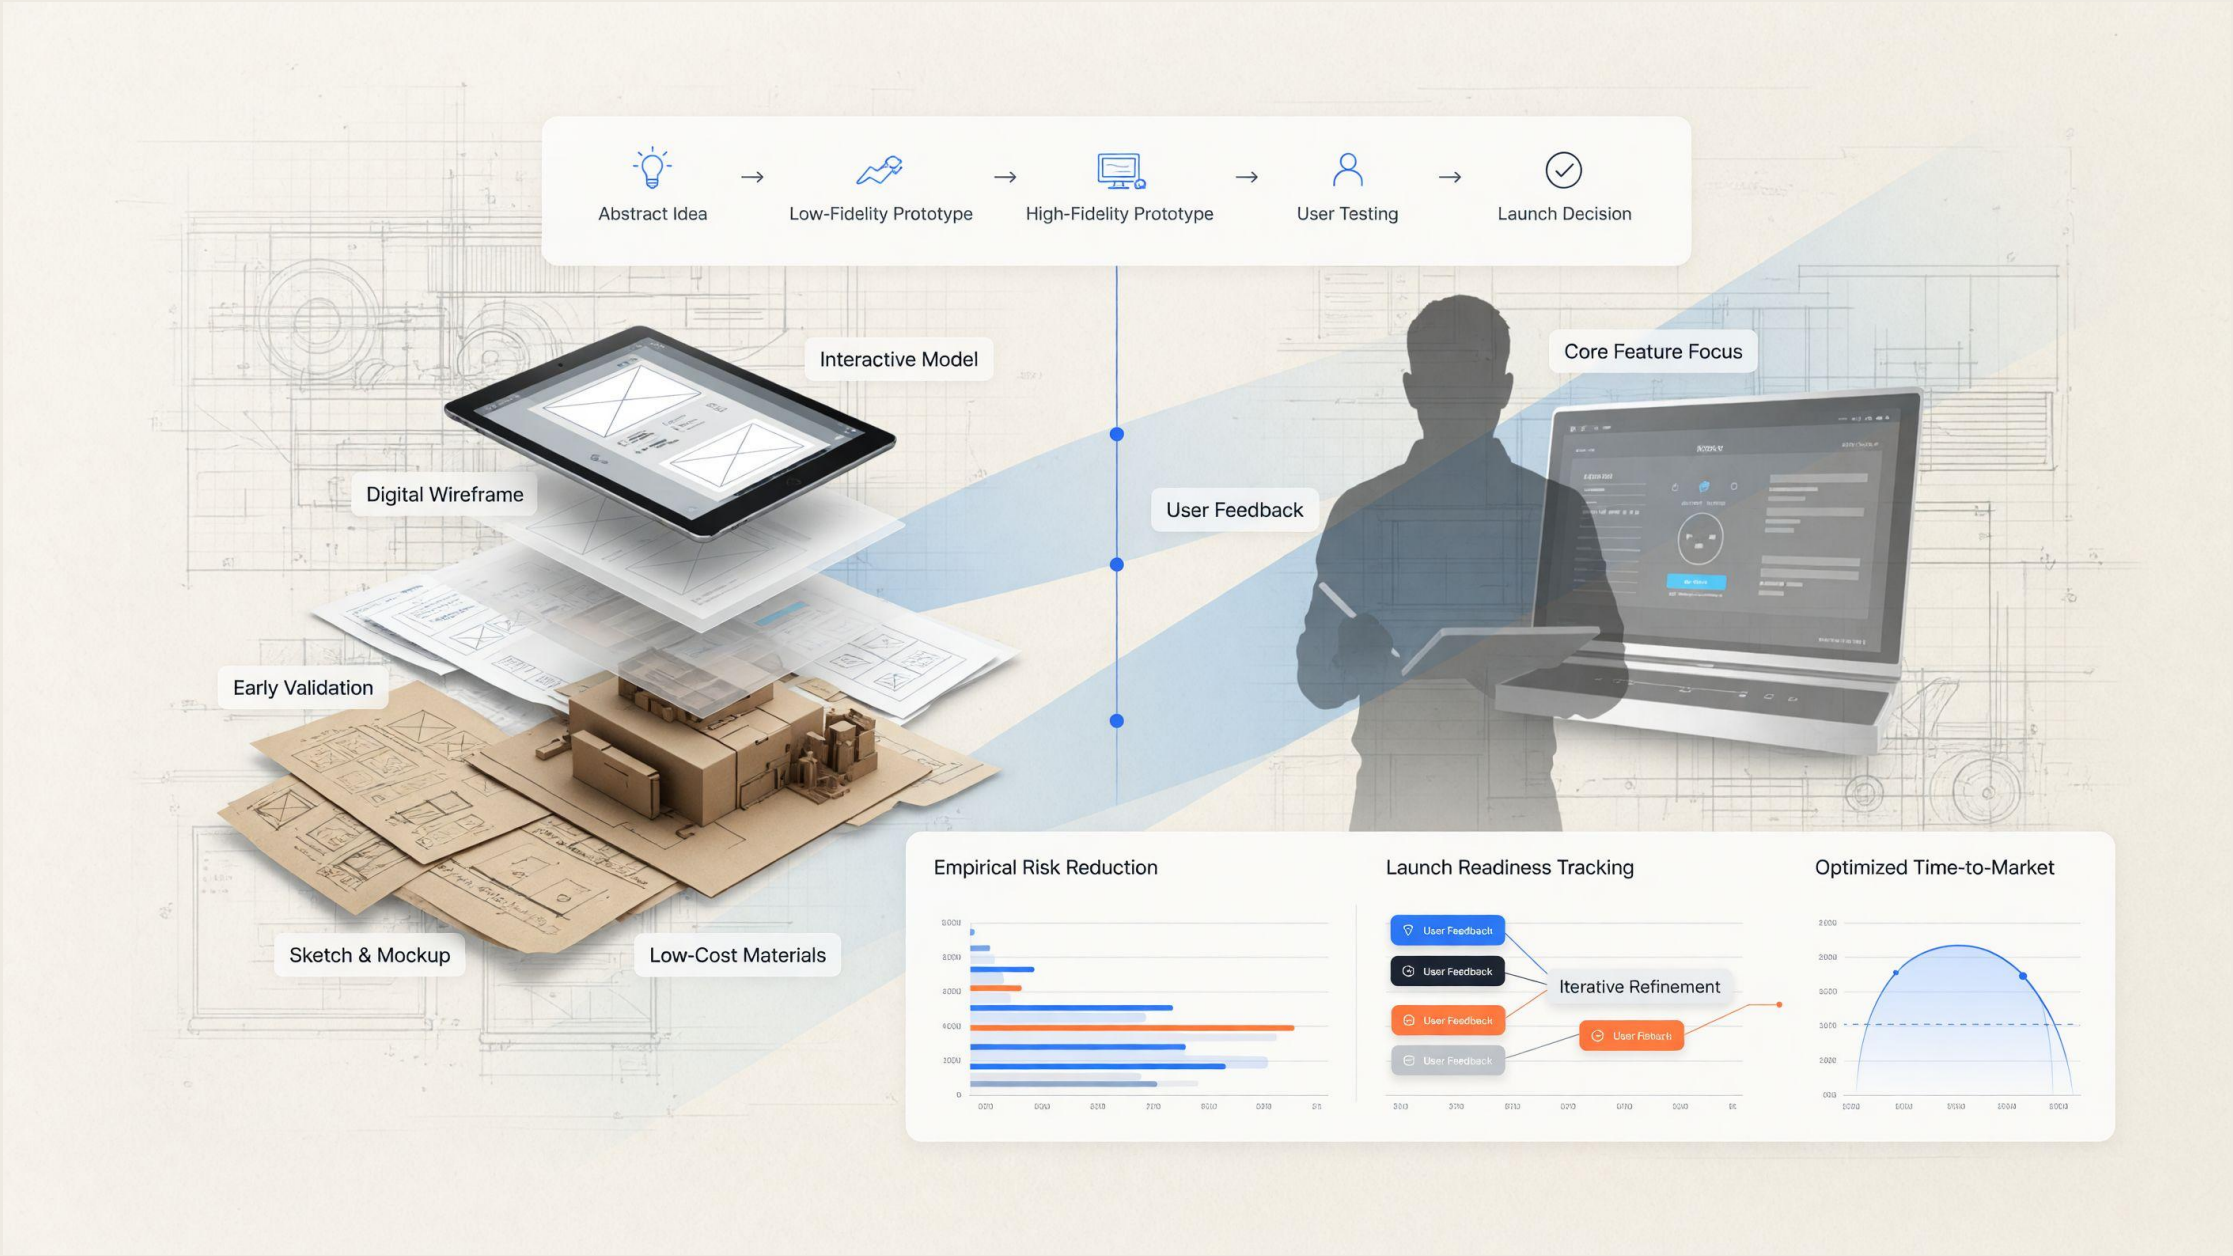

Creative Exploration

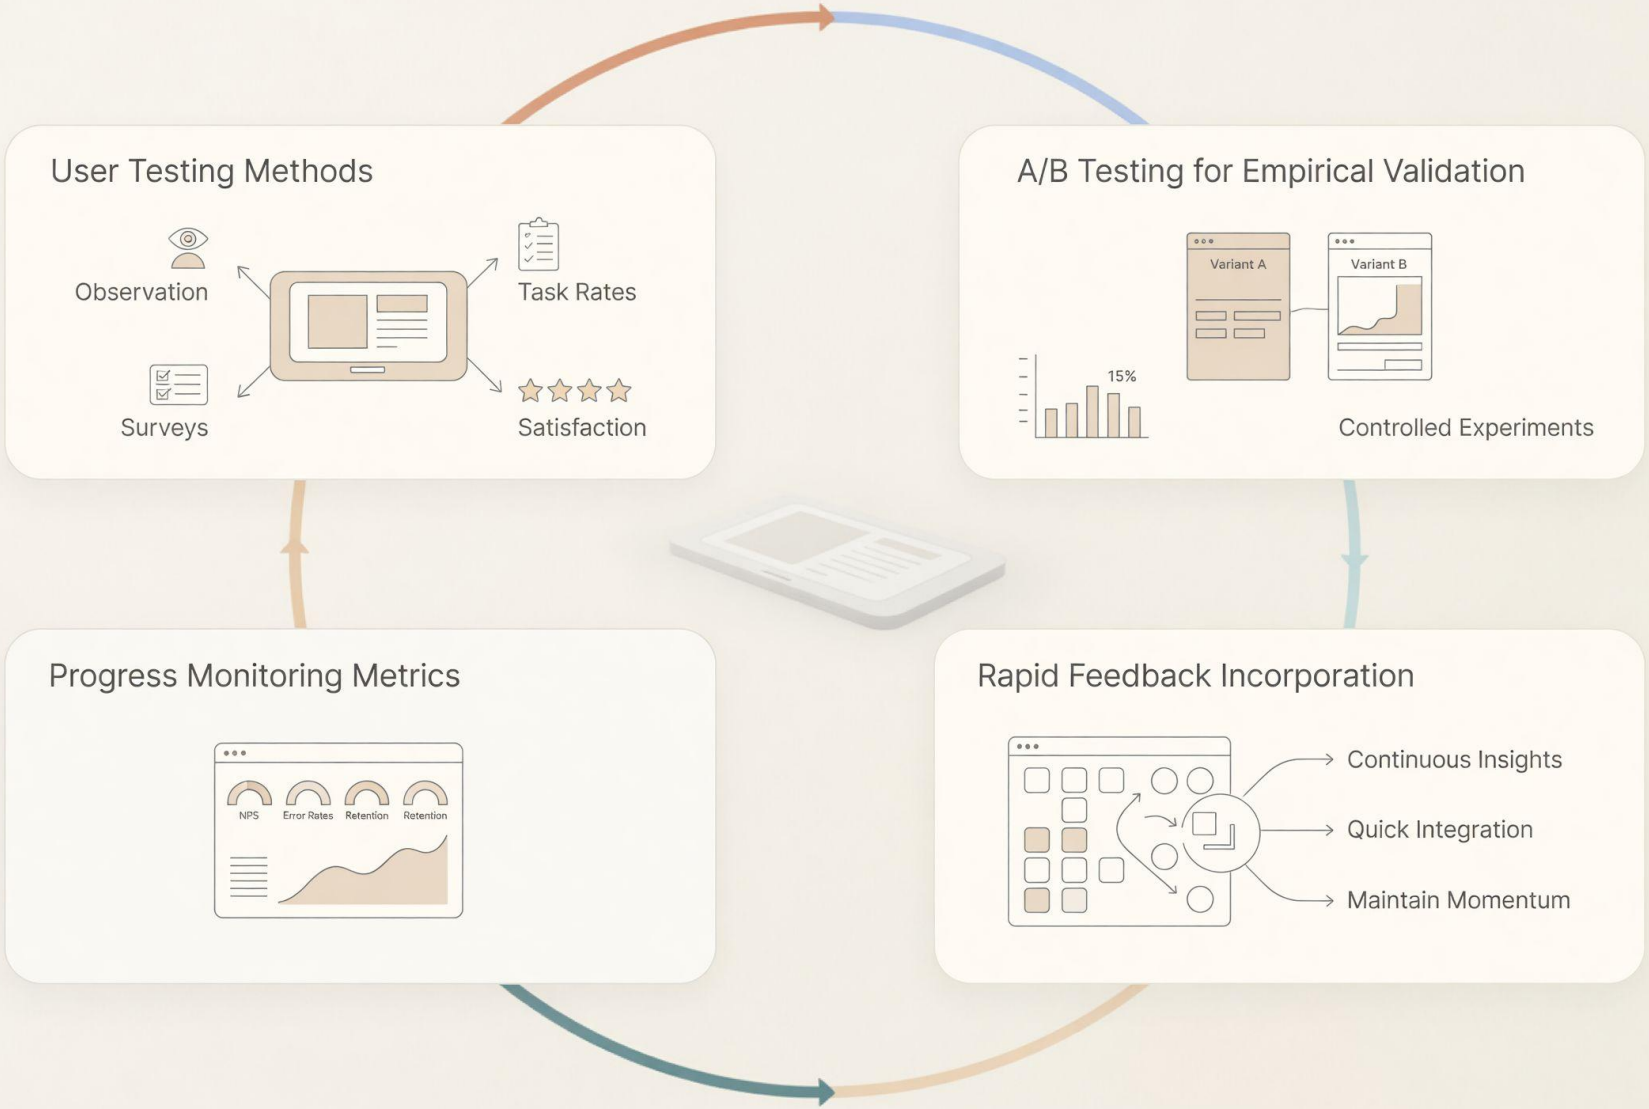

Objective Evaluation

Data-Driven Decision

Prototyping Processes

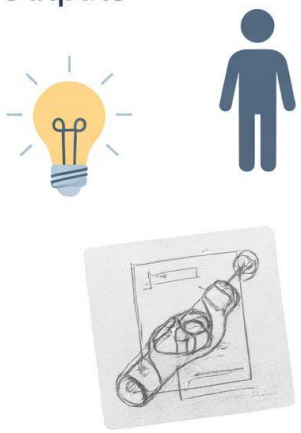

Iterative Testing and Feedback Loops

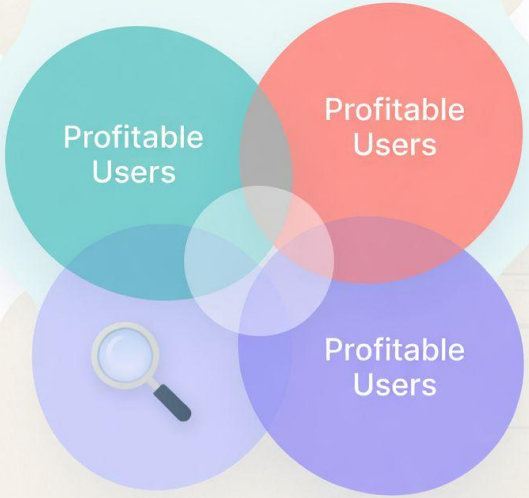

Integrating Design Thinking in Commercial Strategies

Design Thinking Outputs

Market Segmentation

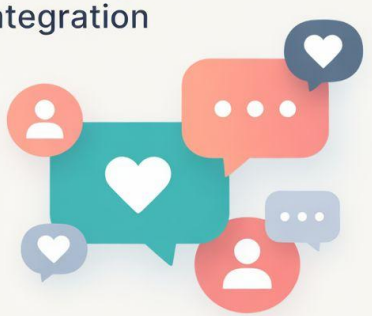

Financial Forecasting

Higher Product Success & Stakeholder Value

Marketing Integration

Real-world Cases of Design Thinking Success

Collaborative Approaches in Product Development

Hands-On Examples with Practical Commercialization Scenarios

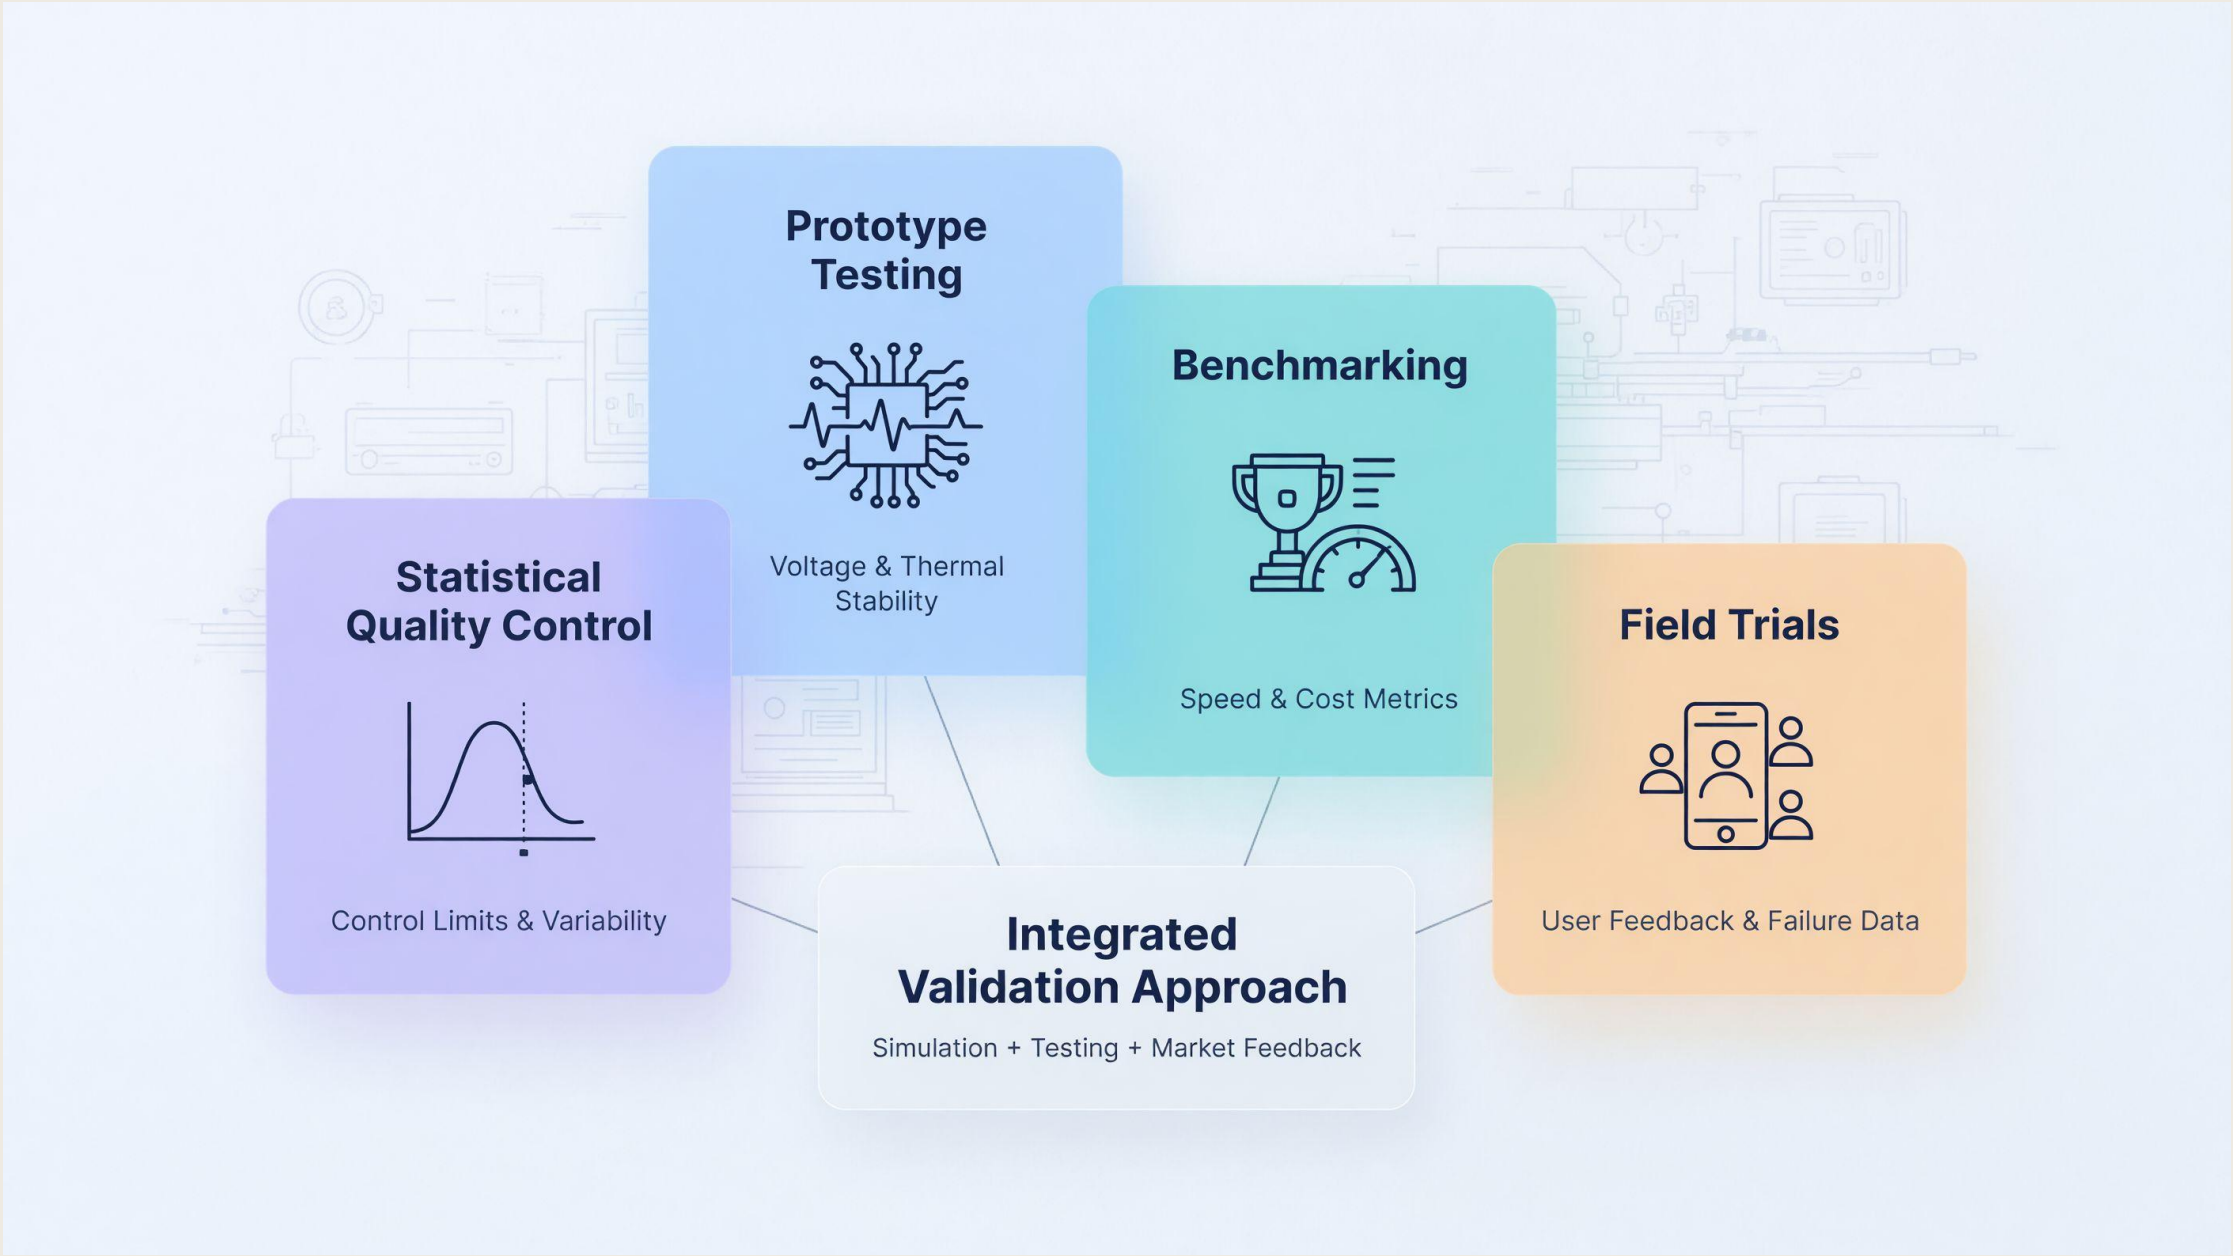

Chapter 4: Product and Service Validation Methods

Ir Prof Alan Lam, JP

Powered by Poffices.AI

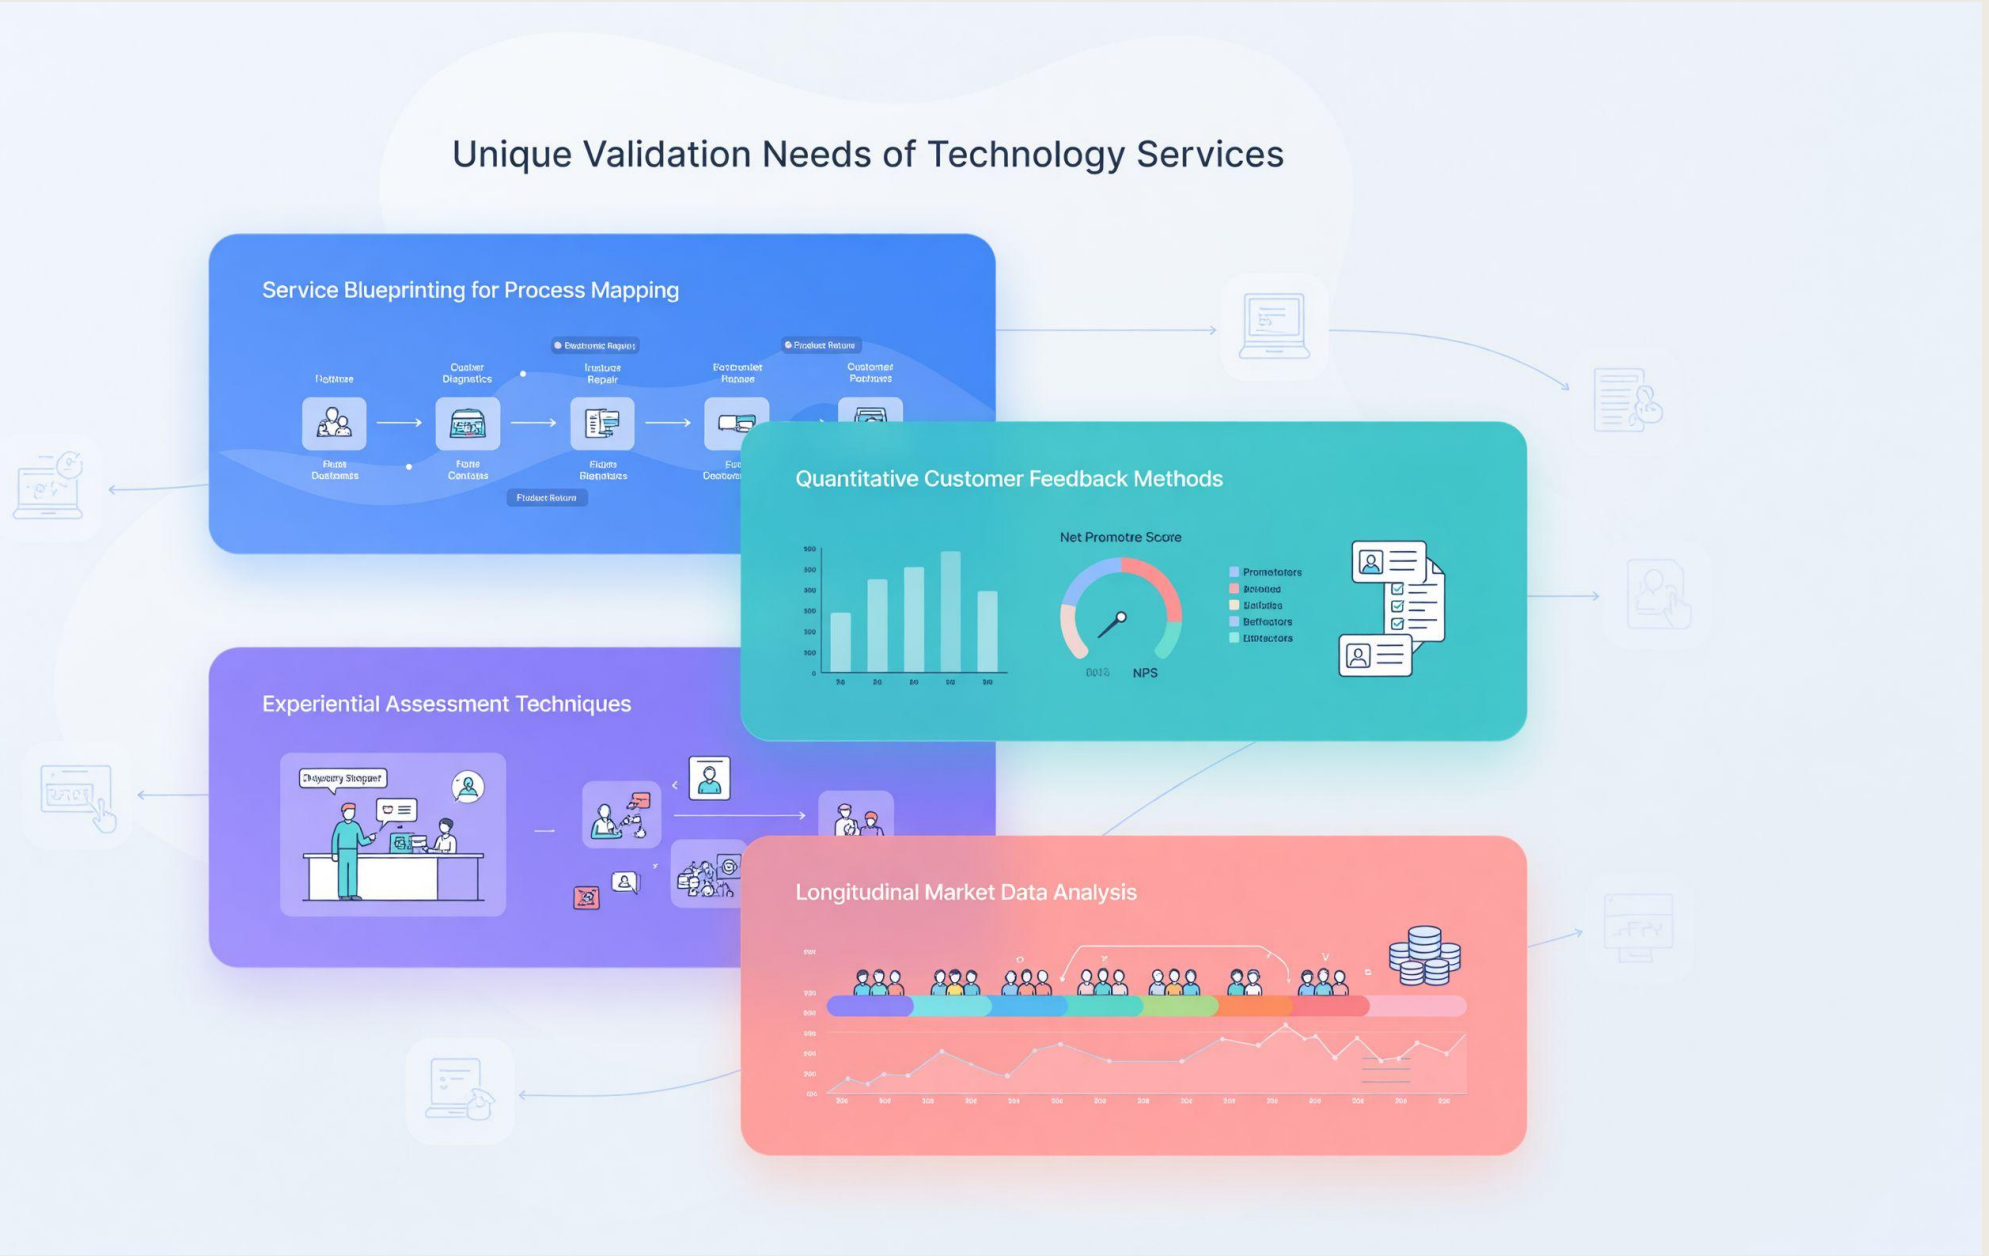

Techniques for Product Validation

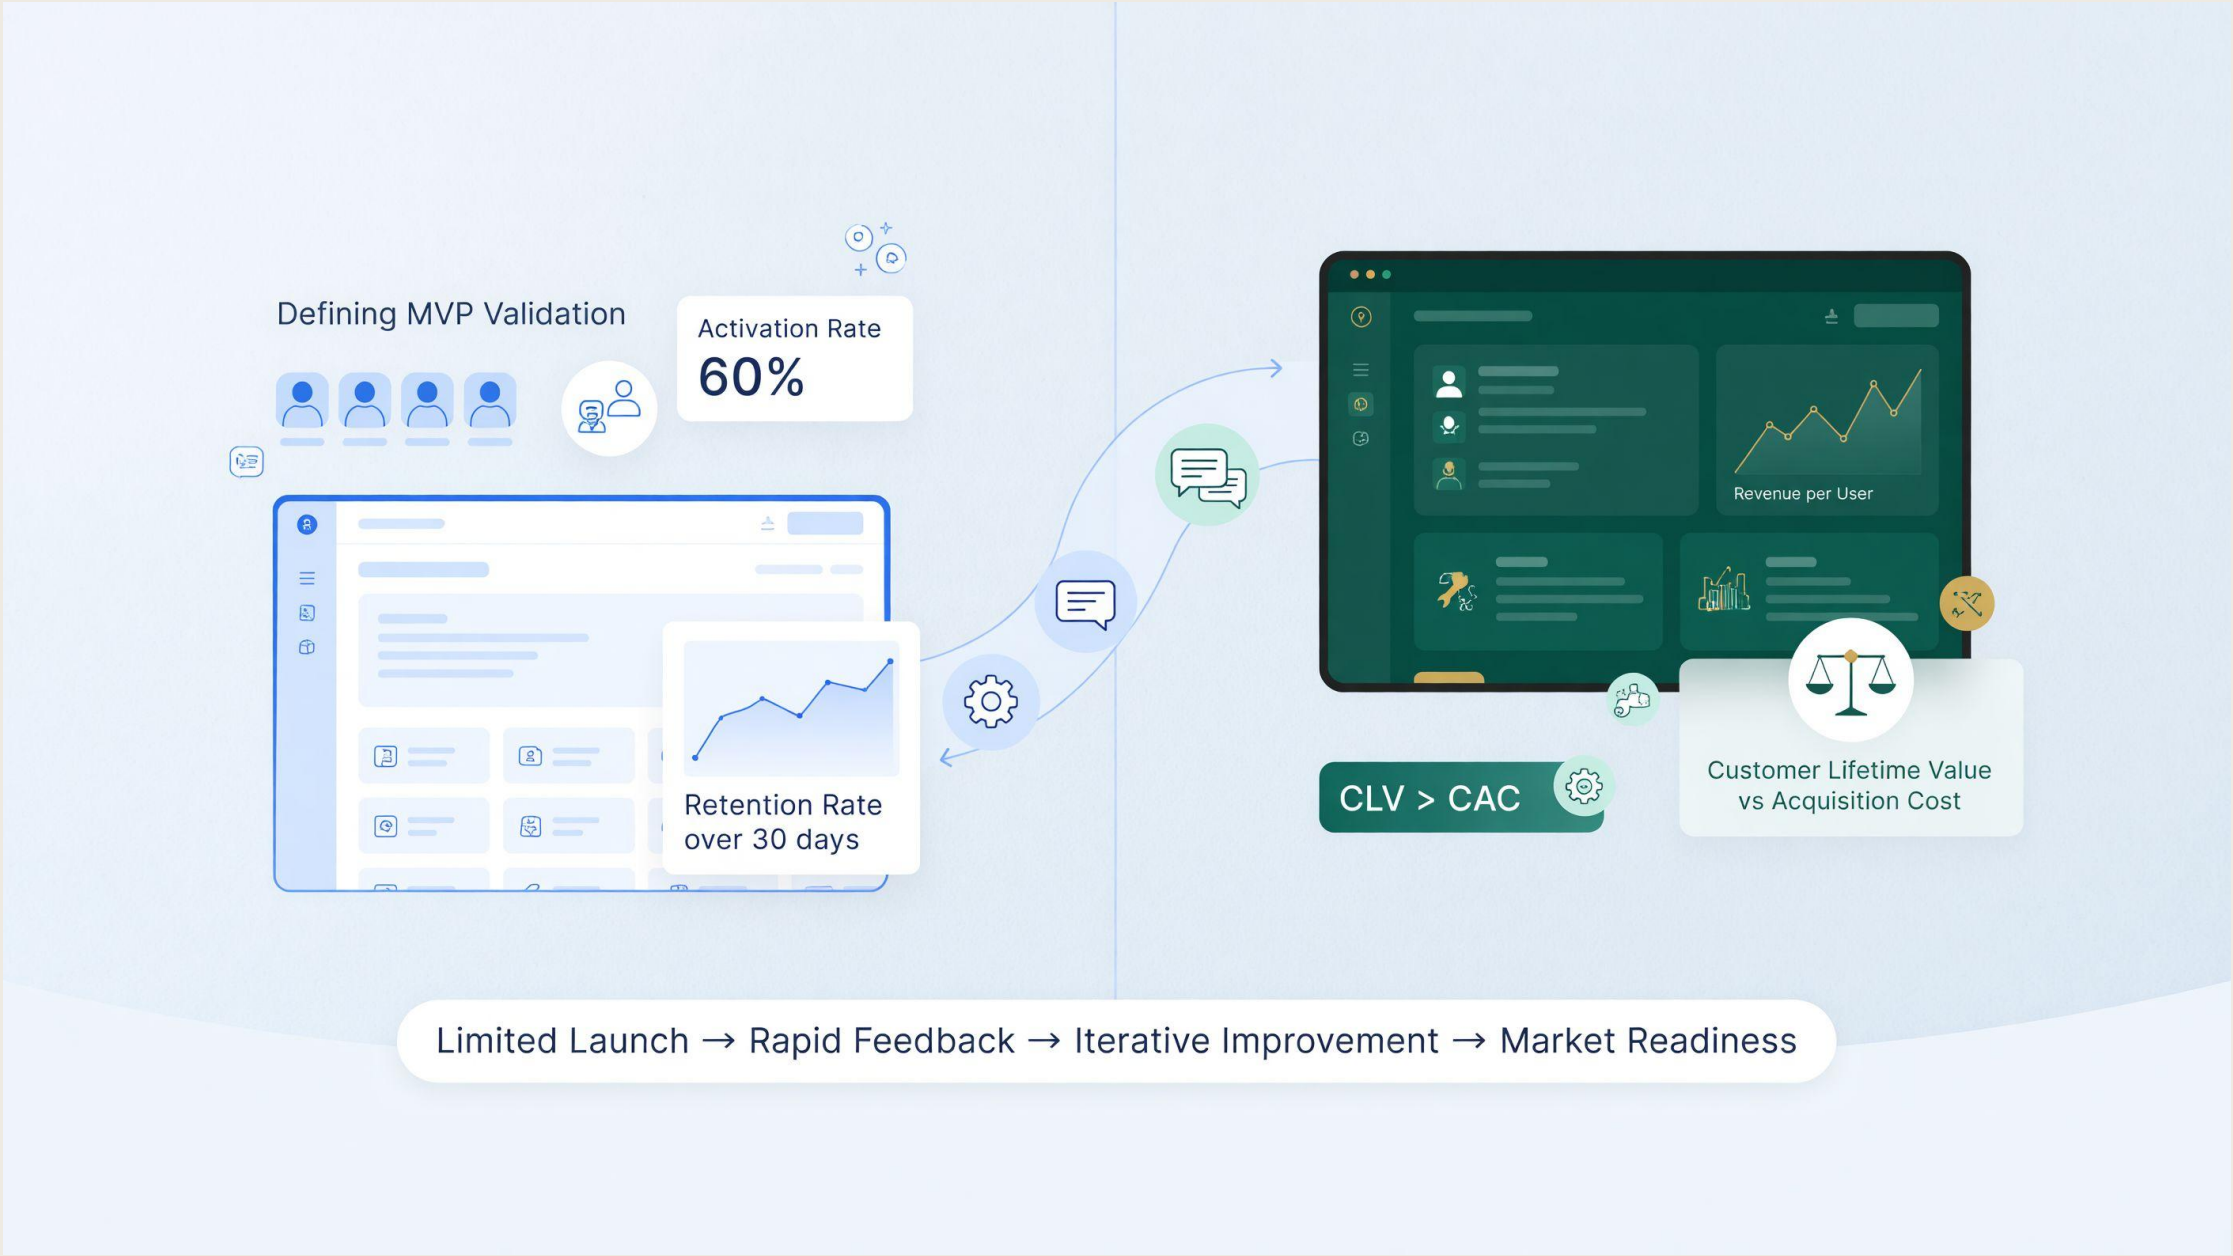

Usability Testing Frameworks

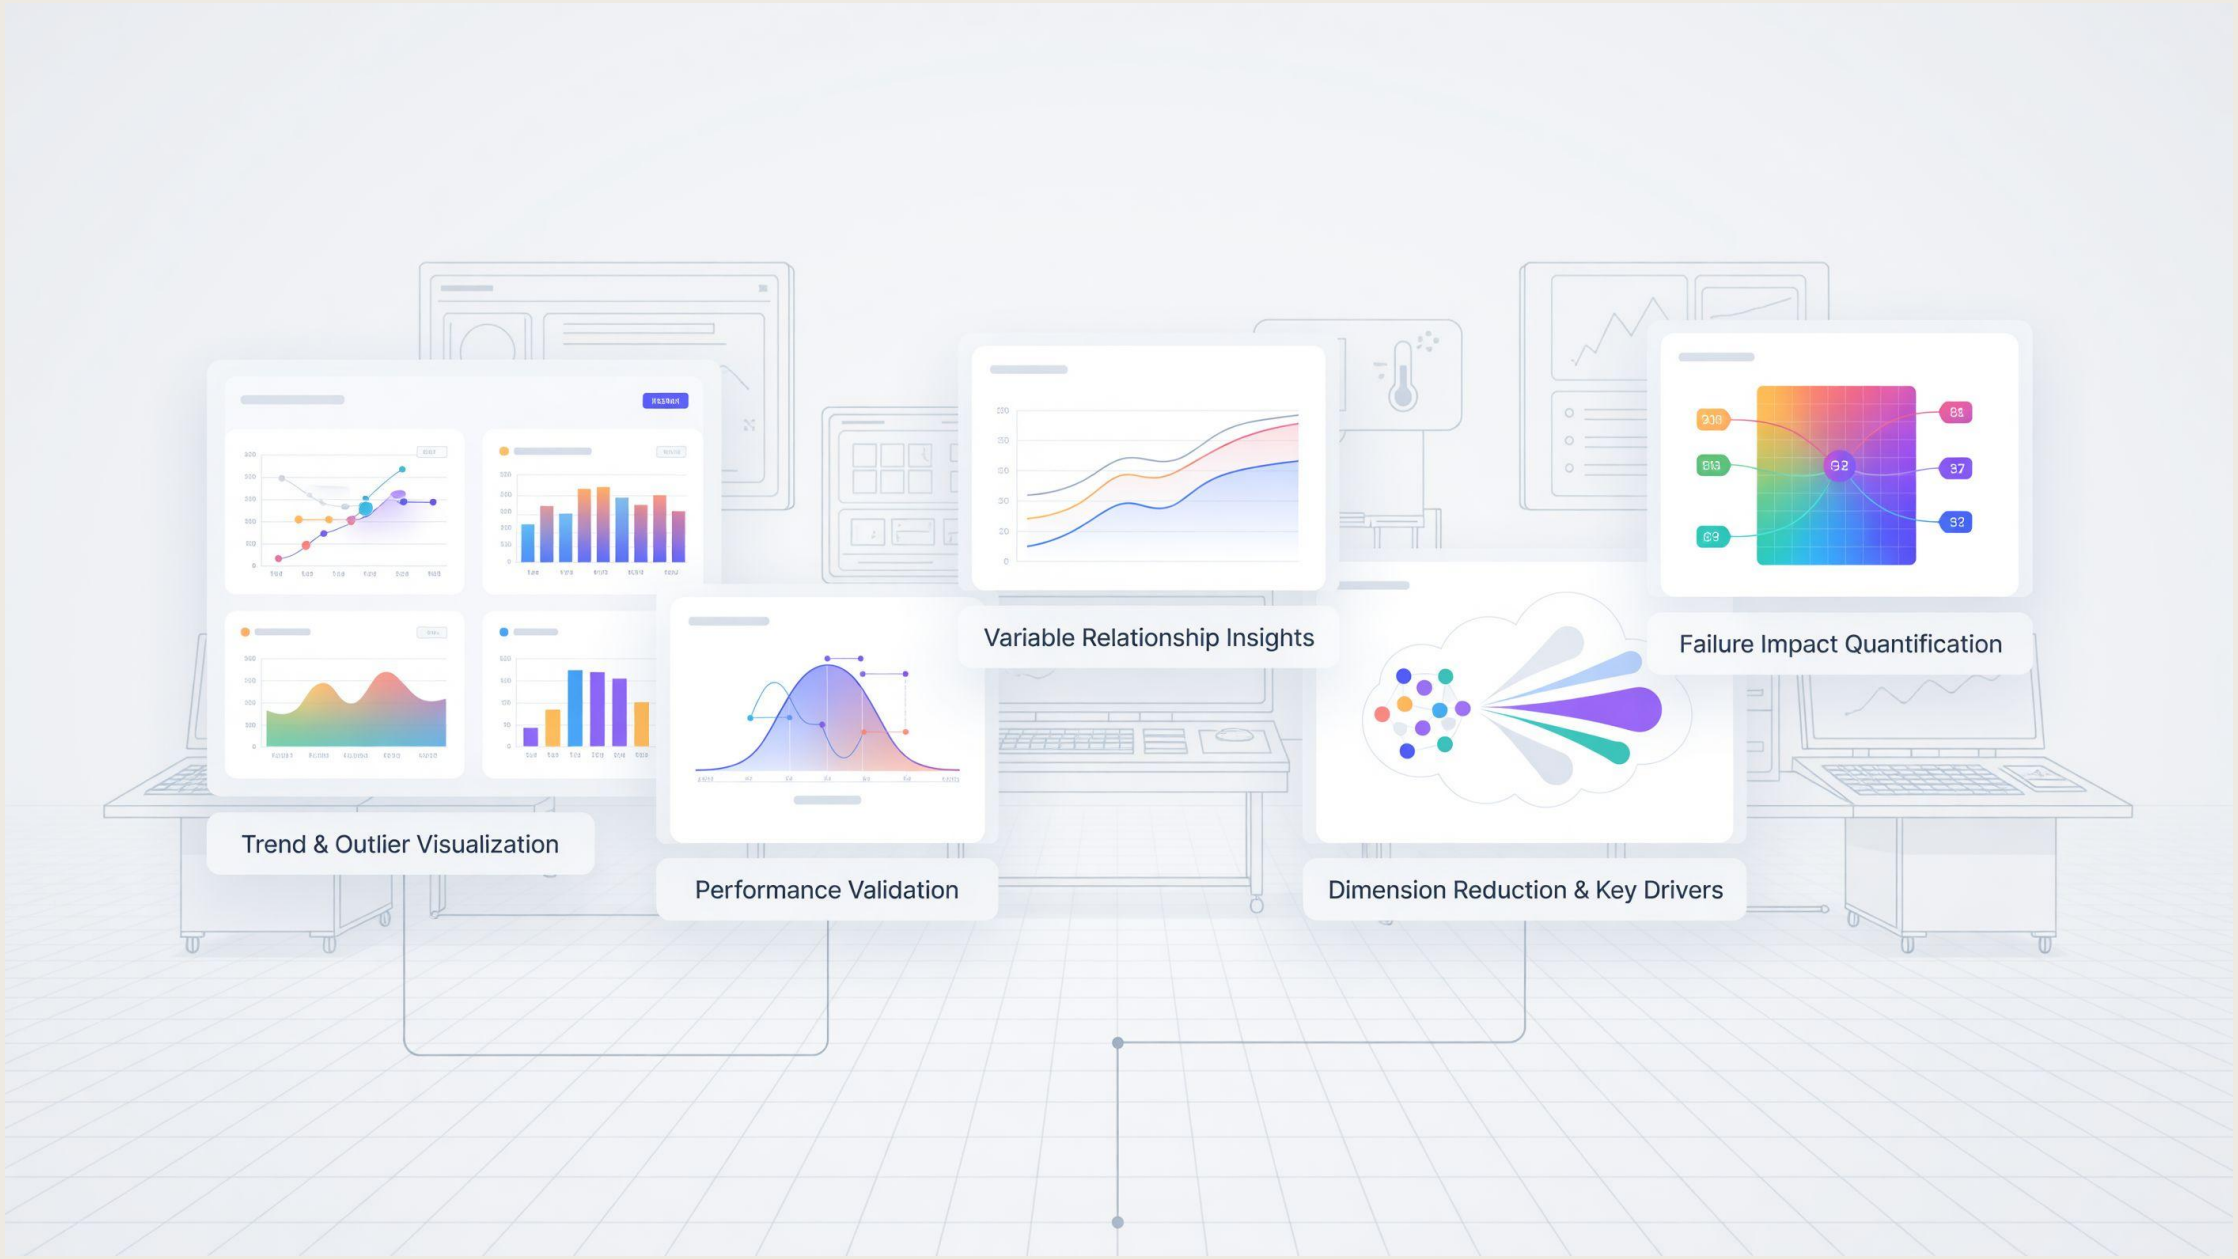

Methods to Validate Services in the Market

Minimum Viable Product (MVP) Validation

Analyzing Validation Data Effectively

Field Testing Methods and Metrics

Examples of Successful Validation Studies

Chapter 5: Effective Product and Service Description Techniques

Ir Prof Alan Lam, JP

Powered by Poffices.AI

Crafting Clear Product Descriptions

Clarity and Precision in Messaging

Use Simple Functional Definitions and Quantificable Specs

Logical Structure and Readability

Limit Industry Jargon and Use Plain Language

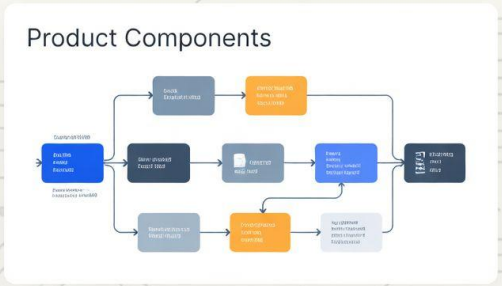

Contextualization and Localization

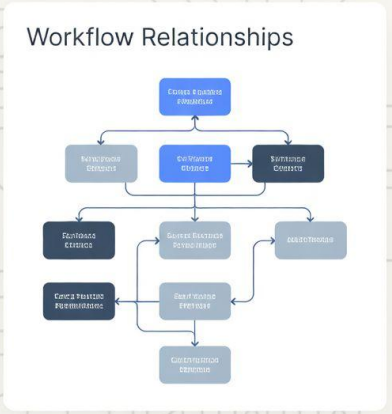

Writing Clear Service Descriptions

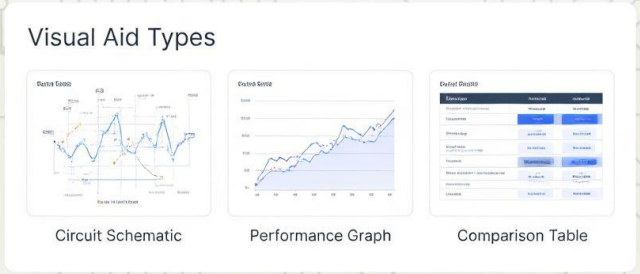

Using Visual Aids and Diagrams

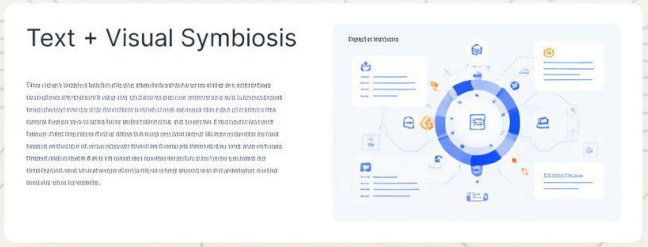

Block Diagram

Flowchart

Circuit Schematic | Performance Graph | Comparison Table

Integration

Incorporating Customer Testimonials

Value of Customer Testimonials

Real User Trust & Tangible Benefits

Enhancing Testimonial Authenticity

Customer Name
Role

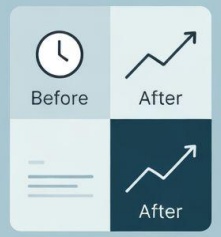

Company

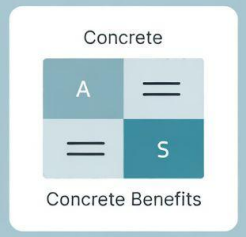

Selecting Impactful Testimonials

Specific Measurable Benefits

Using Case Studies & Strategic Positioning

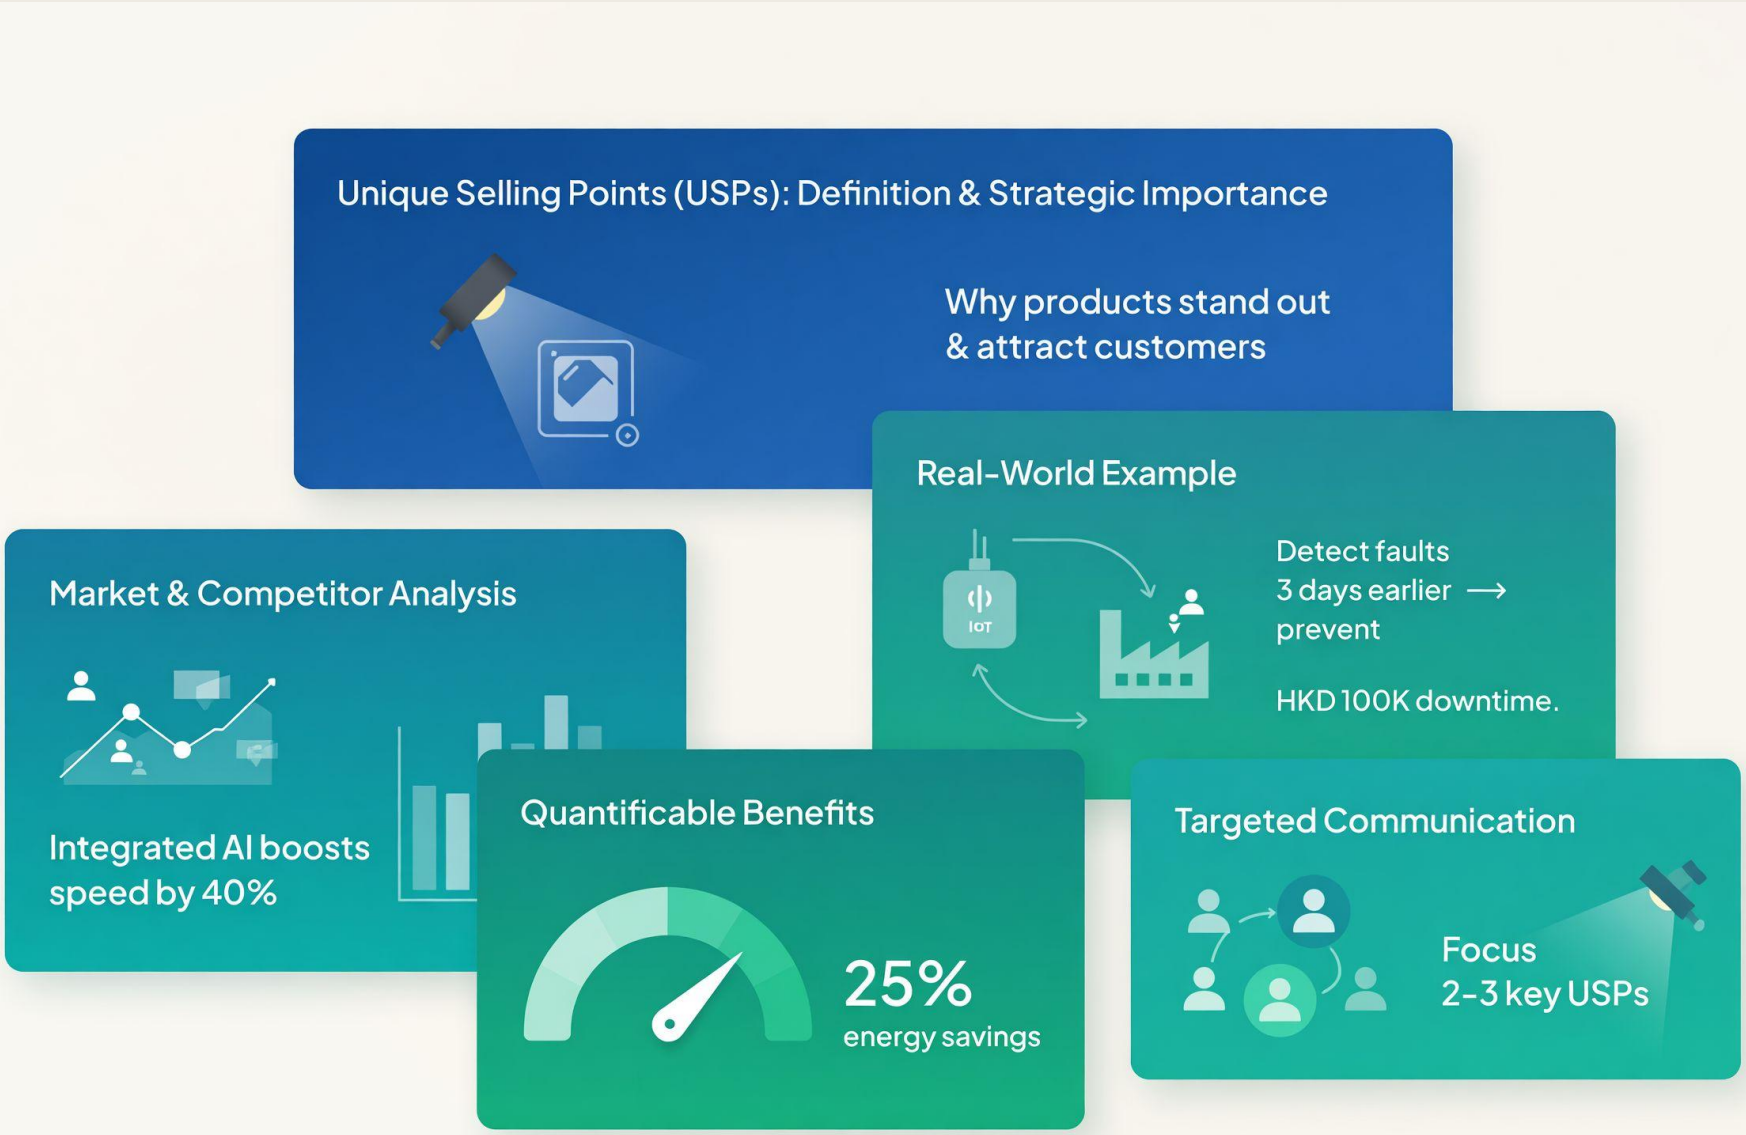

Ensuring Transparency and Compliance

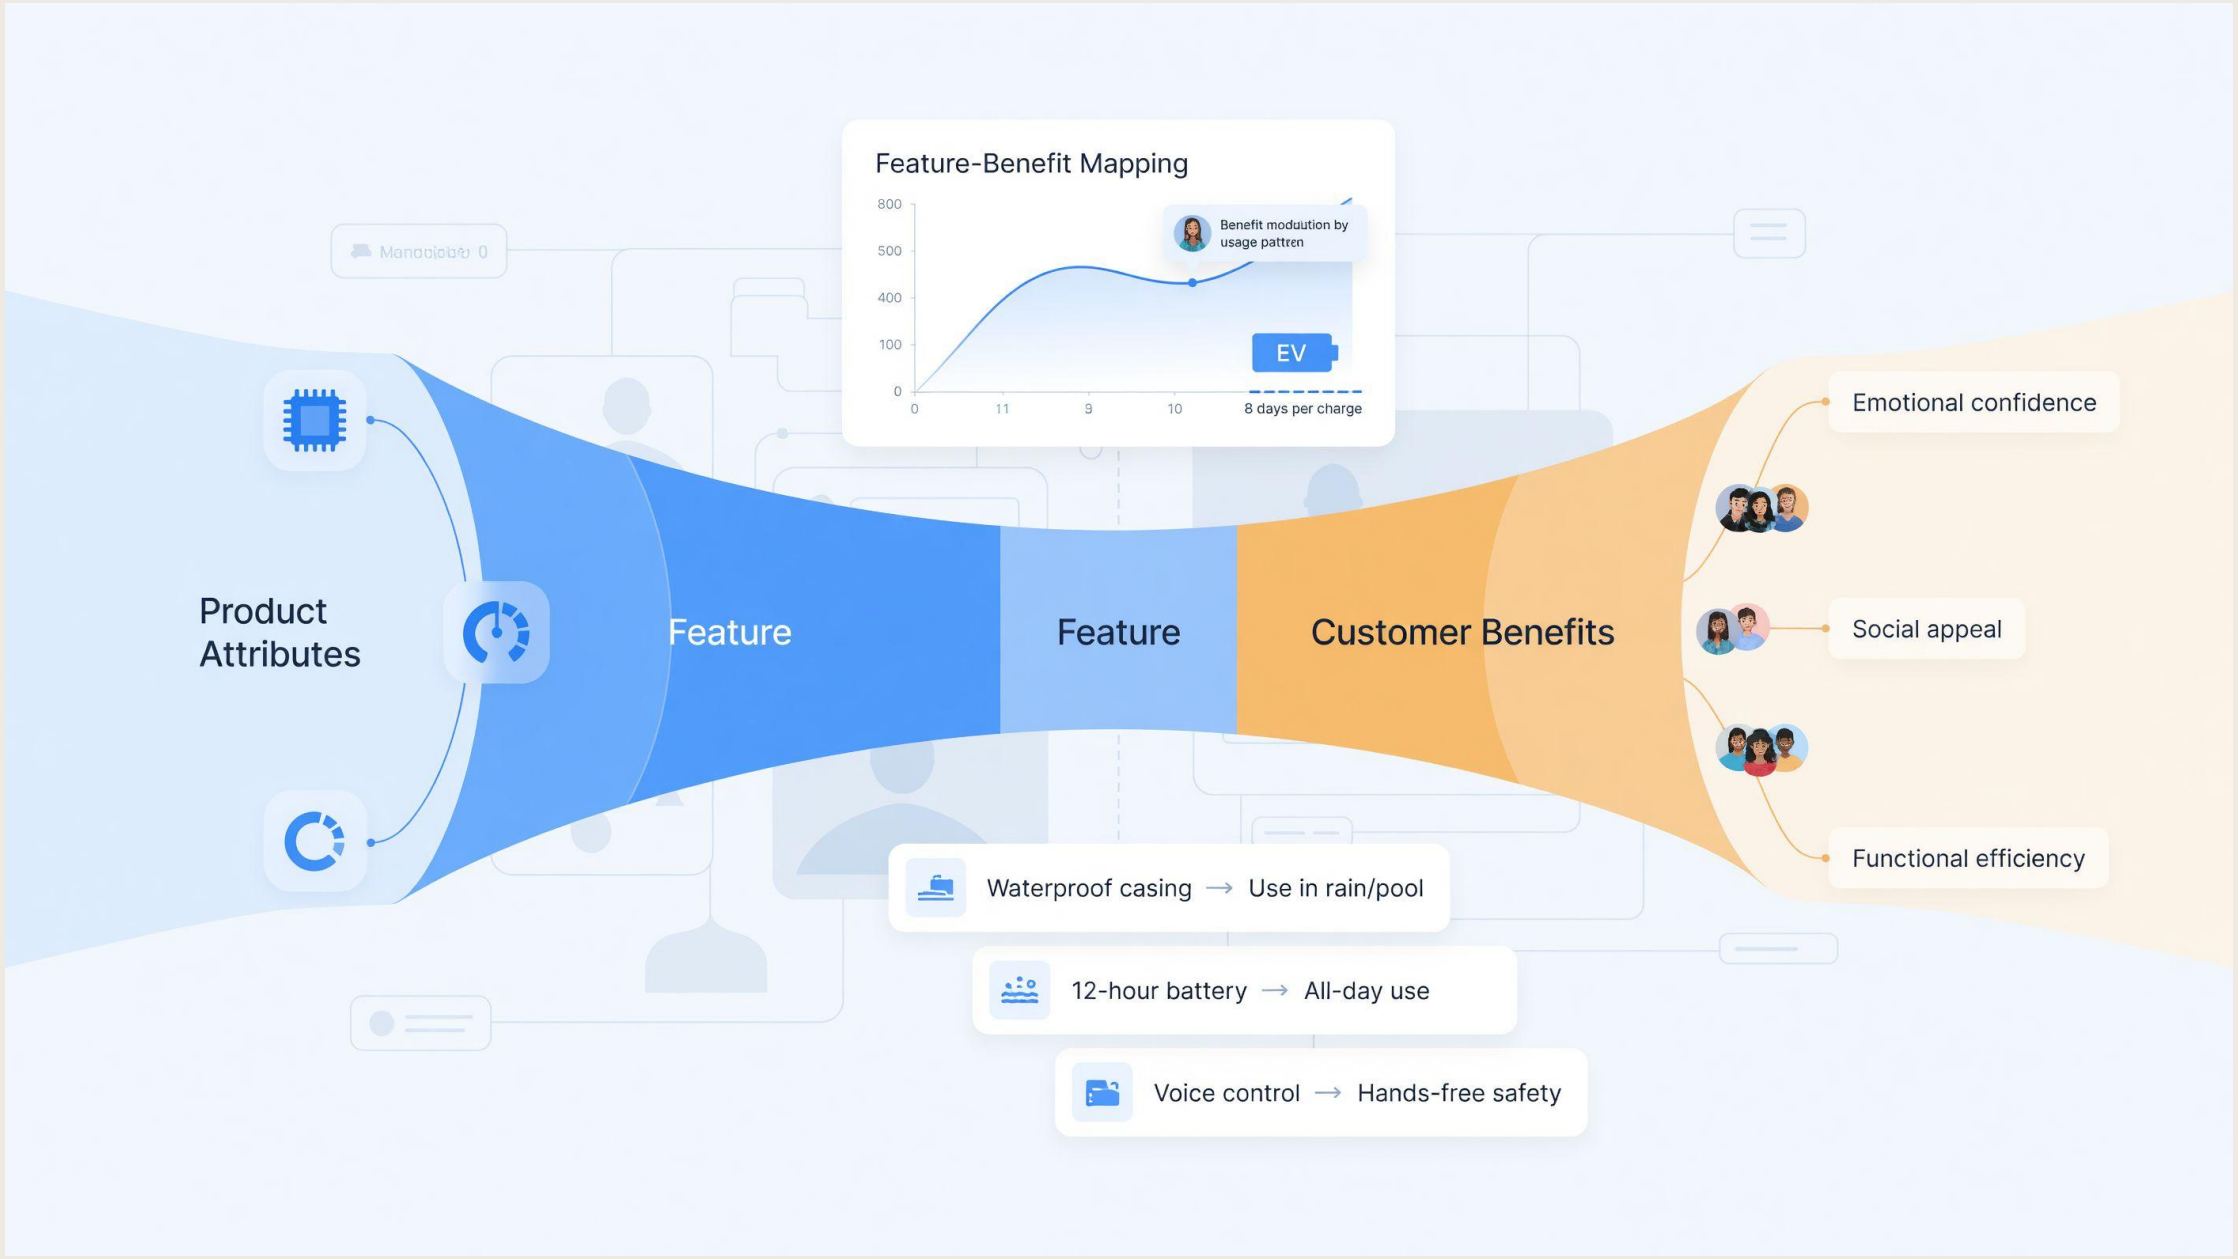

Genuine & Regulatory Safe

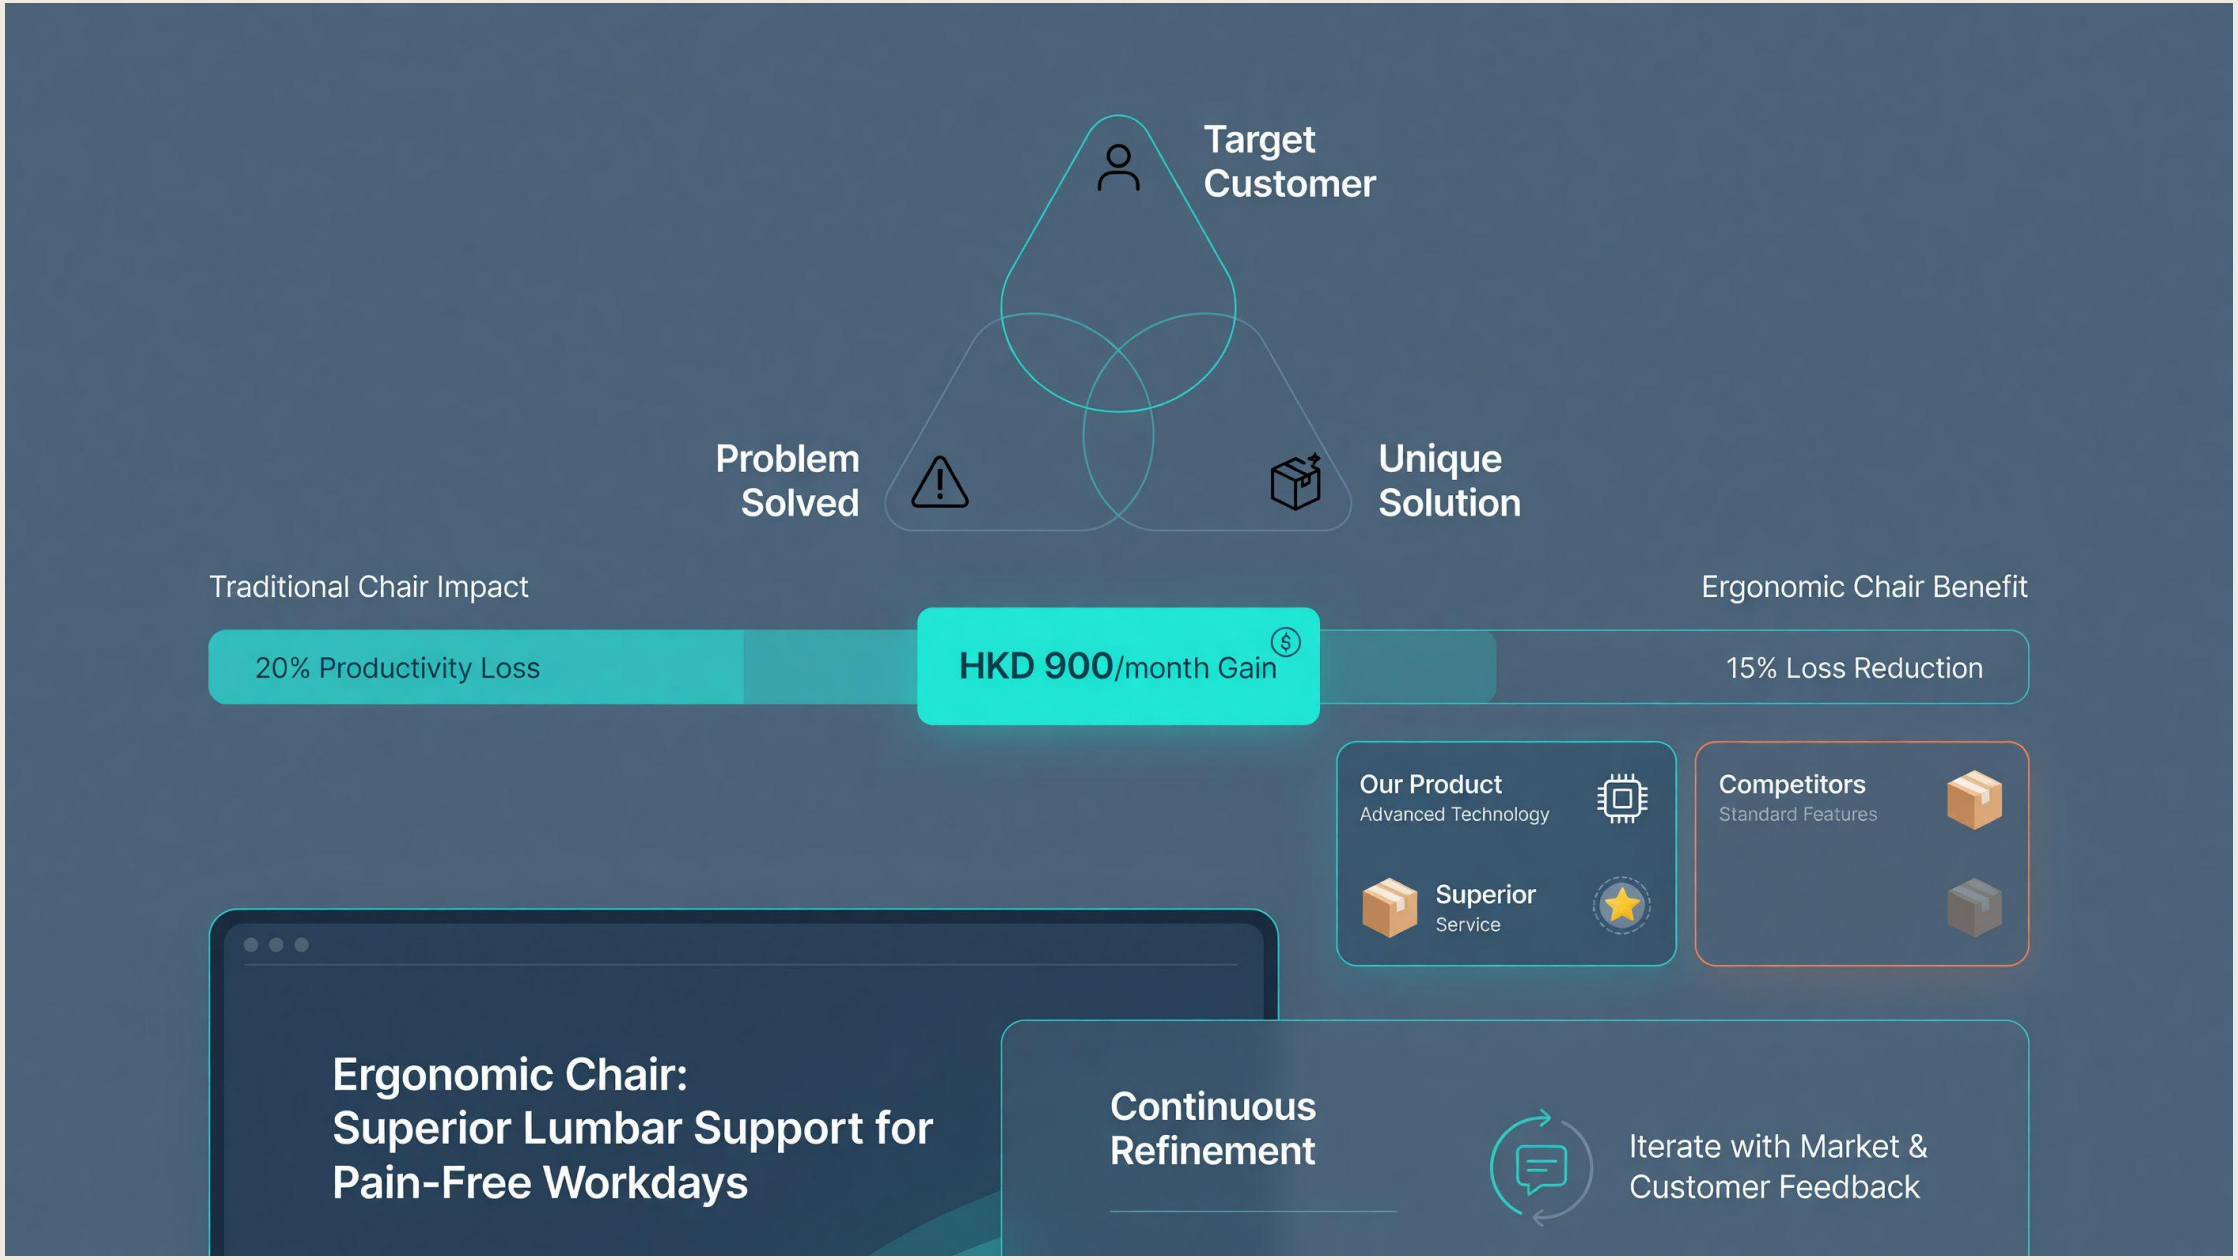

Highlighting Unique Selling Points with Examples

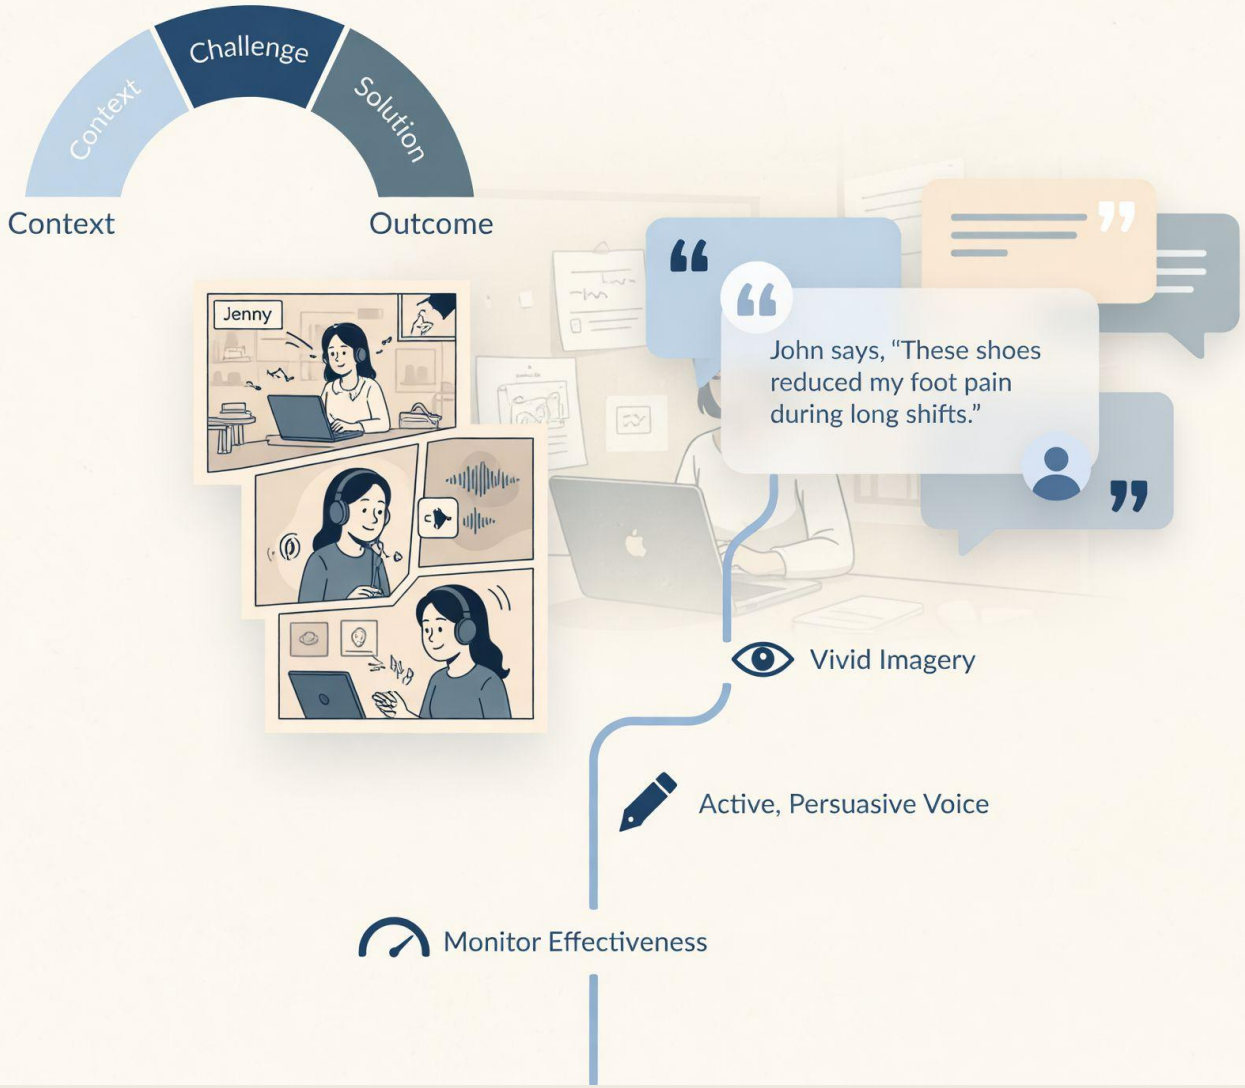

Feature-Benefit Mapping

Value Proposition Formulation

Storytelling Techniques in Product Description

Using Customer Language Effectively

Chapter 6: Successful Example: OpenAI for Commercializing Technology to Successful Product

Ir Prof Alan Lam, JP

Powered by Poffices.AI

Case Study of OpenAI Commercialization Strategy

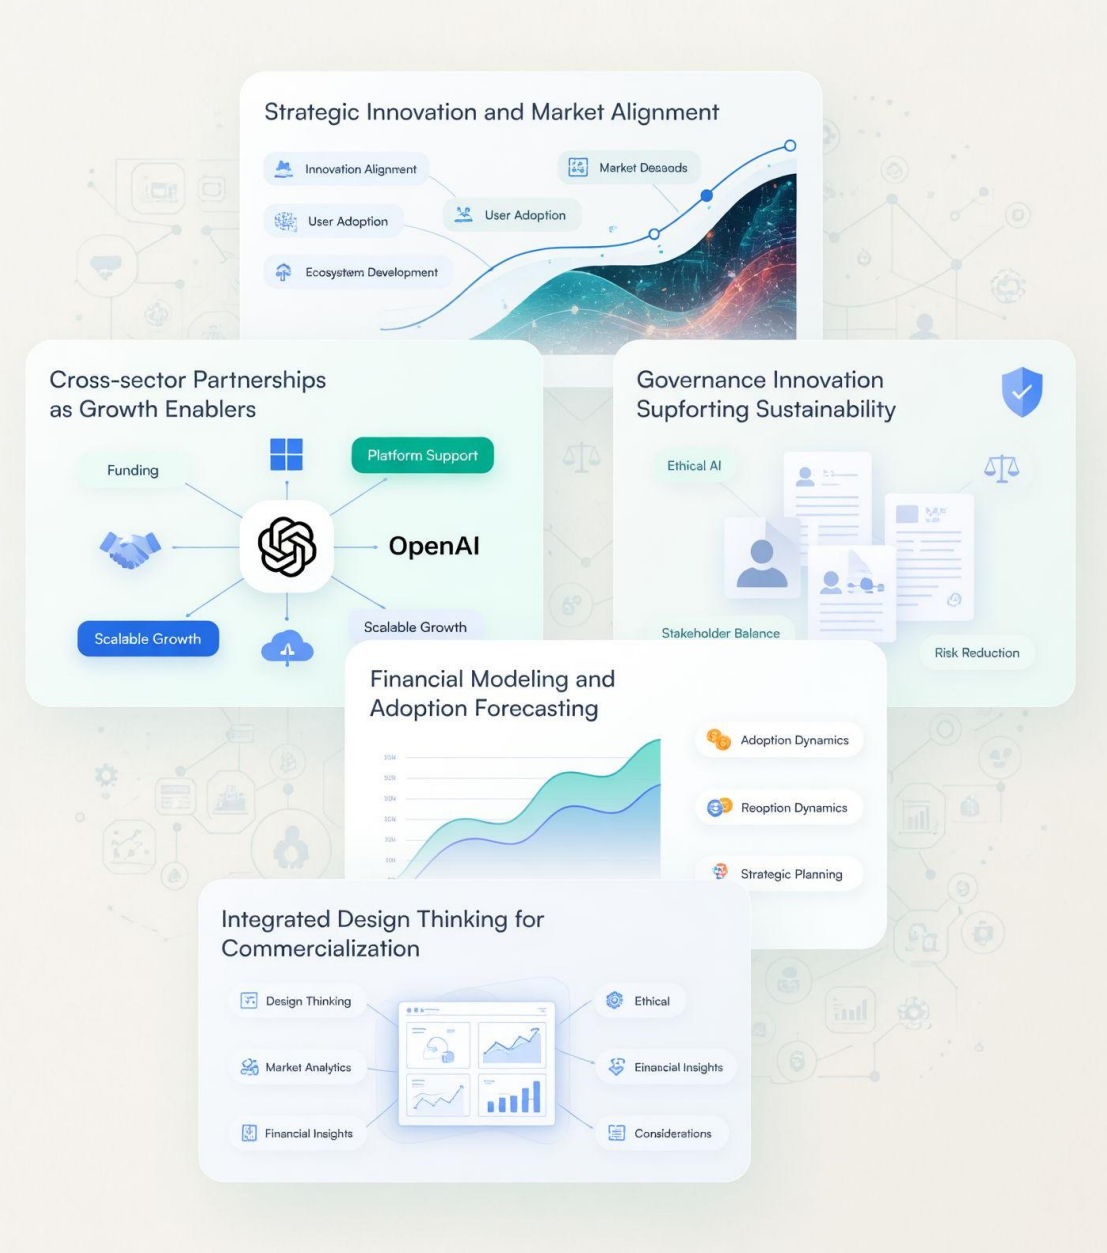

Analysis of Market Entry Approaches

Step-by-Step Breakdown of OpenAI's Commercial Strategy

Lessons Learned and Key Takeaways from OpenAI

- Strategic alignment of innovation, partnership, and market understanding drives commercialization success.
- Rapid adoption enabled by accessible, scalable products and ecosystem development.
- Cross-sector partnerships, especially Microsoft's role, critical for scaling resources and reach.
- Ethical AI governance enhances credibility amid scrutiny and risk.
- Financial modeling and logistic adoption forecasting aid strategic planning and business viability.
- Effective commercialization integrates design thinking, market data, financial analysis, and ethics.

In-Class Discussion:

- Please based on the today's lecture to summarize what did you learn
- Using the Design Thinking Framework for your ideas about startup projects.
- Make one Slide about Technology and Product or Solution Idea.

Product Commercialization
